

### Fur Coat Changes Girl's Personality

By ANN LANDERS  
Dear Ann Landers: We are two girls 12 years old who want to know how to get rid of an ex-friend.

Dear Ann Landers: I am an 18-year-old college student but already I have some definite notions on how to raise children. I am not learning from psychology books, but from my older sister who has three children. I'm learning what not to do by watching her. My sister constantly repeats, in the presence of her children, the cute little things they say and do. She also repeats the naughty things — and they hear every word. My sister claims this is good because the complimentary things make them pleased with themselves and the bad things make them ashamed — thus improving their behavior.

Dear Ann Landers: I've been married to an almost perfect husband for 13 years. He never loses his temper, his disposition is remarkable. He is successful in business, generous with money, good to our children, and we've never had a serious fight.

### Demo Leader Raps Critics Of Kennedy

WASHINGTON (UPI) — Senate Democratic leader Mike Mansfield said Saturday in a strong statement of support for President Kennedy's Cuba stand that speeches are not going to solve the problem. He urged critics of the President to trust him and turn over to the proper authority any information they may have.

The Montana Democrat made his remarks in a UPI interview even as Republican critics unveiled for one of the strongest attacks yet on the Cuba situation. "The difficulties in Cuba are not going to be solved by speeches on the floor of Congress," he said. "What we have to do is place our trust in the hands of the President, who has enormous responsibility and who, I believe, is just as patriotic as those who criticize him."

"If any of these critics have constructive alternatives they wish to propose, all they have to do is come forward and do so," the Senate majority leader said. "As our country is concerned, our people — Democrats and Republicans — must always remember there is no cheap, no quick or easy but of the difficulties confronting us in Cuba. This is only one of the many trouble spots in the world where we have to keep on the alert constantly."

Mansfield said the administration "is keeping a strict daily surveillance of Cuba. Every scrap of information is being gone over thoroughly by appropriate intelligence agencies. I'd suggest that if any member of Congress has any information he thinks has a bearing on the Cuban situation, he should immediately present it to the CIA, state or defense departments, or all three, and be assured it will be screened very thoroughly."

One outspoken GOP critic, Sen. Kenneth B. Keating, N. Y., did convey unverified and unpublished information to central intelligence director John A. McCone Friday at a meeting arranged by Kennedy. He also gave McCone some proposals for economic action against Cuba to pass along to Kennedy.

The Kashmir talks now are discussing the question of partitioning the state, which lies between the northern borders of India and Pakistan.

A Pakistan spokesman said his delegation now expects India to produce maps and draw the lines of the proposed partition. For the past 15 years, Pakistan has controlled about one-third of the state and India the rest, with the border the 1948 cease-fire line.

Reliable sources said the Indian plan for partition would require only minor adjustments from the present cease-fire line, with India retaining a large part of the vale of Kashmir.

WASHINGTON (UPI) — Sen. Thomas J. Dodd, D-Conn., today proposed a \$1,200 income tax exemption for persons paying college bills.

Dodd said in a statement that the mounting costs of tuition, books and other expenses were making it increasingly difficult for persons of moderate means to afford college for their children.

WASHINGTON (UPI) — Sen. Alan Bible, D-Nev., said Friday he would ask Interior Secretary Stewart L. Udall to defer a projected increase of grazing fees on public lands.

### KU KLATTER

By Penny Lynn Howie

By PENNY LYNN HOWIE  
The Re In Ca club of KUHS held a banquet for old members and their dates at the Willard Hotel, Friday, Jan. 25. Re In Ca stands for Resistance, Inductance and Capacitance, the three elements found in all radio circuits.

Following the dinner three old members of the club gave short after dinner speeches. Bill St. John spoke on the history of Re In Ca; Mark Wilbur on How to Be a Radio Amateur; and Gordon Ward on "Lids." (A lid, for the non-radio minded folk, is a poor radio operator in ham lingo.)

Re In Ca was formed for students interested in radio construction. Membership is open to all radio students.

This year's officers are Richard Flynn, president; Allan Jackson, vice president; and Gordon Ward, secretary-treasurer.

An immunization clinic is to be conducted by the Klamath County Health Department at KUHS. Shots for protection against polio.

### Kennedy Certain Reds To Quit Cuba In March

WASHINGTON (UPI) — President Kennedy is confident that Russian combat troops will be out of Cuba by the end of March, according to a high Latin American official.

The President was reported planning joint action with the Organization of American States to deal with the situation unless the troops leave by then. The Latin American official, who saw Kennedy recently but declined to be identified, said he shared Kennedy's optimism.

Other sources said Kennedy was drafting a personal message to Soviet Premier Nikita Khrushchev prodding him to speed up the withdrawal of the 17,000 Russian troops the administration say are still in Cuba.

These reports came as the Republican congressional committee fired a new blast at the administration estimate of the Cuban situation.

It charged that administration supporters, in defending the State Department, the Pentagon and the Central Intelligence Agency as reliable sources of intelligence while denouncing Republican sources, have "attempted to sweep under the political rug two rather disturbing facts."

Cite Invasion Failure  
The committee's weekly newsletter said they were this: "The Atty. Gen. Robert Kennedy, just two weeks earlier in an attempt to absolve his brother from blame in the disastrous Bay of Pigs invasion, had blamed these same intelligence sources for insisting air cover for the amphibious landing would not be needed, thus dooming the invaders to imprisonment."

"These are the same sources, which after a general house-cleaning by the administration, denied the presence of Russian missiles in Cuba until such weaponry conveniently was 'discovered' by President Kennedy just before the 1962 congressional elections."

The Republican newsletter also carried its own estimate of Red strength in Cuba, saying that it was based on reports from the U.S. government itself, representatives of foreign governments who maintain embassies in Havana, the various Cuban underground agencies "and other sources."

This is the breakdown it gave: "Troops — at least 18,700, perhaps as many as 40,000, as charged by Sen. Strom Thurmond, D-S.C., including five Soviet generals."

"Missiles—40 to 46 weapons capable of carrying nuclear warheads to the United States, according to Rep. Donald C. Bruce, R-Ind., all of which are hidden in caves and manned by Soviet technicians. There also are approximately 140 ground-to-air and ground-to-sea missiles capable of carrying nuclear warheads.

"Planes—in all, 184 MIG fighters, all capable of carrying nuclear bombs to any point in the United States, have been counted. There also are 37 Soviet transport planes, 83 Soviet helicopters, an unestimated number of IL-28 bombers in underground reverbments, and at least two U2-type reconnaissance craft.

"Submarines — from 12 to 15, which operate from at least four Soviet-built bases. Tanks—250 to 600 of the latest model Soviet vehicles.

"Patrol boats—nine with launchers for nuclear warheads, 23 others. Personnel carriers — more than 200. Guns—more than 2,000 artillery pieces, 'thousands' of rocket launchers, 2,200 antiaircraft guns, nearly 3,000 mortars, nearly half a million rifles and small arms."

One of the most persistent critics of the administration's Cuban policy, Sen. Kenneth S. Keating, R-N.Y., gave Central Intelligence Agency director John A. McCone a proposed "course of action" on Cuba Friday. McCone, who met Keating in the senator's office at the President's request, will relay the suggestions to Kennedy, Keating said.

Spokesmen for the livestock industry appeared before the subcommittee to protest plans by the interior department to increase grazing fees. They also complained of plans for cuts in the number of cattle that could be grazed on public land.

But spokesmen for conservationist groups urged that the fees be increased and the additional revenues used for improvement of the public lands.

WASHINGTON (UPI) — Sen. Alan Bible, D-Nev., said Friday he would ask Interior Secretary Stewart L. Udall to defer a projected increase of grazing fees on public lands.

### Ground Broken Saturday For 440-Mile Aqueduct

GUSTINE, Calif. (UPI) — Ground was broken Saturday for the 440-mile California aqueduct, which will carry water through the San Joaquin Valley to Southern California.

Lt. Gov. Glenn M. Anderson told those on hand that "you are witnessing one of the greatest undertakings in the history of man."

Work began on the \$750,000 project to fill low spots on a 10-mile stretch of the planned aqueduct west of California Highway 33. The ceremony, attended by state officials and legislators, was held four miles west of here.

When work is completed in 1972, surplus water from Northern California will be delivered to eastern Los Angeles County, Riverside, San Bernardino, San Diego and Imperial Counties. The project was made possible through the \$1.75 billion dollar state water plan bond issue approved by voters in 1960.

The section of aqueduct near here will carry 4.5 million gallons of water a minute.
