Twenty-two veniremen from the regular panel were to be interviewed by the attorneys as prospective jurors to fill the 12 seats in the jury box and the other seat of alternate juror.

Agriculture Students Join FFA Celebration

TULELAKE — Vocational agriculture students at Tulelake and Malin high schools will join Future Farmers of America members throughout the nation in activities to focus attention on the importance of agriculture during National FFA Week, Feb. 16-23.

"Agriculture—Vital to America" is this year's FFA Week theme. The farm boys will undertake a campaign to inform the general public about the importance of the agricultural industry to America.

They will also be telling of the numerous and wide variety of opportunities that exist in this field for young men who have a background of farm experience and training.

"We have such an abundance of food in America that people are taking farmers for granted," said Robert Boster, vocational agriculture teacher, and FFA Adviser at Tulelake High School.

"Actually, farming is our largest and most vital industry, and it is becoming increasingly important with our expanding population," added James Lacy, agricultural instructor at Malin High School.

"In our area, particularly, most of the businesses and most of the jobs are basically dependent upon surrounding farmings for their existence. Take away the farms, and for all practical purposes you would destroy the entire community," added Boster.

Membership in the FFA is made up of boys who are students of vocational agriculture in the public high schools. The organization's activities are designed to help develop rural leadership and good citizenship and to stimulate the boys to better achievement in their study and work toward successful establishment in farming or other agricultural occupations.

The Tulelake FFA Chapter has 32 members and the Malin Chapter has members. The national Future Farmer organization has 383,000 members, with 9,000 local chapters in the 50 states and Puerto Rico.

Future Farmers chose the week of George Washington's birthday each year for the observance of National FFA Week. Although the coyote is much smaller than the true wolf and more closely resembles a jackal.
