City Police Probe Seven Theft Cases

Seven thefts, including break-ins at the Klamath Pulp Mill Company and the Skateland Roller Rink, were reported to the Klamath Falls Police Department Thursday and Friday.

The total value of the stolen goods is in excess of \$500, police said.

Two pairs of skates valued at \$170 were taken from the skating rink, at the corner of Shasta Way and Martin Street, late Wednesday night or early Thursday morning.

The thief gained entry by breaking a window in the rear of the building. Apparently nothing else in the building was disturbed.

A set of wrenches valued at \$30 were apparently the only things taken in the break-in at the tile company Wednesday although police reported papers had been scattered all over the firm's office.

Entry was gained by tearing out a screen in an office window. Clothes valued at \$175 were stolen in two thefts from cars belonging to out-of-town visitors.

Don Holbrook, Willows, Calif., told police a window on his car was pried open and his clothes, valued at \$100 were taken. The theft occurred Thursday morning while the vehicle was parked in the Winema Motor Hotel parking lot.

A \$75 suit belonging to Wayne Donker, Hillsboro, Ore., was stolen from Donker's unlocked car early Wednesday morning while the vehicle was parked at Plum Street near South Sixth Street.

Arleen Skaugset, 303 Alameda Avenue, reported a \$70 record player belonging to her was taken from the First Christian Church, North Ninth and Pine streets.

Miss Skaugset said the player had been missing since January, but she assumed it had been borrowed and didn't report it until Thursday.

Eight hub caps valued at about \$50 were reported stolen in two separate thefts, one early Thursday morning and the other Feb. 27.

Mrs. Neil Shaffer, 5427 Leland Drive, told police she thought her husband had reported the theft which occurred late in February. The hub caps were taken while the vehicle was parked at the Holiday Bowl parking lot.

A Portland resident, W. D. Mohl, reported his hub caps were taken while he was staying at the Pony Pass Motel. He said they were worth about \$25.

Forecasts of Klamath Basin streams for the April-September period are as follows: Sprague River, 36 per cent; Williamson River, 56 per cent; Willamette River, 51 per cent; inflow to Clear Lake Reservoir, 18 per cent; inflow to Gerber Reservoir, 16 per cent of average.

Statewide, the 1963 irrigation water outlook in Oregon is extremely poor except for those irrigators who have adequate stored water supplies. Snowpack is at the all-time low as measured at 150 snow courses, and summer flow of streams will be greatly reduced as a result.

The next report on snow surveys and water supply conditions will be issued on April 8, 1963.

Bond Sales Totaled Here

During February county sales for United States Savings Bonds amounted to \$30,719, according to Gene Favell, County Savings Bonds chairman.

In his monthly sales release the county chairman said "While our Savings Bonds sales in Oregon were off slightly in February, sales in the state are still about six per cent ahead of the first two months of last year. Series E and H sales in Oregon last month were \$2,591,881 and the total for the year to date in the state is \$6,834,239."

Announcement was also made by Favell that an effort is being made in all Oregon counties to obtain the cooperation of the major civic, service, patriotic and women's organizations, as well as farm and union groups where they exist, for an effort by that group to take an active part in the coming Freedom Bond Drive by seeking to earn the United States Treasury Department Citation through purchases by 50 per cent or more member families of one or more Savings Bonds by July Fourth. He asked that organizations in the county which are interested in seeking this citation get in touch with him as soon as possible.

Schools are available in the field of electronics, aviation, medical corps, nuclear fields and many others. The program assures the qualified applicant of immediate assignment to the school upon successful completion of recruit training. Interested persons may contact the Navy Recruiting Station at Klamath Falls by phoning TU 4-3431 or coming in to the office.

Lon H. Winn, senior chief, said, "In order to balance the output of our schools we are seeking qualified high school graduates to fill existing vacancies before the influx of this year's graduates. These quotas are available to various recruiting stations throughout the country, to be filled by qualified high school graduates. It means that these young men may choose their field of training before enlistment."

East won and could not afford a club or heart lead so played a diamond for me. I played low and West had to win with his king. At this point there was nothing West could do. A diamond return would give me both my diamonds, he was out of clubs and a heart lead would allow me a ruff and discard.

Counting my sure losers, I saw that I had to give up a heart and a club. As for diamonds I would probably lose two tricks if I had to lead it myself, but would probably lose only one if I could get the opponents to do it for me. Hence an elimination play was indicated.

My first step was to draw trumps. Then I led a heart and West was in the lead. He made his best play which was a club but that didn't help him. I cashed the ace and king and led a third club.

YI-KWEI SZE

Sze Slated For Concert

One of the most distinctive and electrifying vocalists on the concert stage today is Chinese bass-baritone Yi-Kwei Sze. His rich fine voice, fine musicianship and gracious manner, combined with an enormous repertoire in six languages have marked him as an addition to the musical hall of fame.

He will appear in Klamath Falls Tuesday, March 19, as guest artist for the Klamath Community Concert Association. The concert will be in the Mills School Auditorium.

His recital engagements from coast to coast have been numerous. His mastery in oratorio and as a soloist with symphony or orchestras has been repeatedly shown by appearances with such leading orchestras as those of Boston, Chicago, San Francisco, Cincinnati, Detroit, Pittsburgh, Houston and San Antonio.

He has had phenomenal success on his concert tours of Australia, New Zealand, Alaska and more recently Europe.

A critic of the New York Herald-Tribune noted recently: "The art of Yi-Kwei Sze is many sided, beautifully polished, musically refined."

Attendance to the concert will be by membership card only.

Bride Burns As New In-Laws Abuse Party

By ANN LANDERS

Dear Ann Landers: We just returned from our honeymoon and I'm so mad smoke is curling out of my ears!

After my husband and I left the wedding dinner my in-law stopped the orchestra, got up on the platform and announced the engagement of their daughter.

My parents spent a fortune to put on one of the loveliest weddings this town has ever seen. I think it was just horrible of my in-laws to take advantage of the occasion to move their own daughter into the spotlight.

A friend of mine even made the comment that my in-laws were very clever to announce their daughter's engagement at our wedding because it saved them the price of an engagement party.

I am eager to get along with my husband's family, but after this galling incident I'm not sure it's worth the effort. Please tell me what you think of this sneaky little maneuver.—J.S.

Dear J.S.: Announcements of this type are often made at gala events. There's nothing unusual about it. But it should not be sprung as a surprise on the host and hostess. As a matter of courtesy your in-laws should have asked for permission to make the announcement.

Since it's over and done with, forget it. It's not worth a four-door family fight.

Dear Ann: You were so right in your answer to that numbskull who believes all women who work nights are running away from the family responsibilities and whooping it up with the boys.

I am one of those "bimbos" a she calls us, who works the night shift. My job is dispatcher for the police department. If nobody would agree to work at night, she and millions of other citizens would be in a heck of a fix.

Of course I'd prefer daylight hours but this important job demands night work.

It's no picnic working from 11 p.m. until 7 a.m., and running a home besides. And then to have some lunatic tell our husbands they are nuts to let us out at night is insulting! Thanks for taking our part.—ANOTHER BIMBO

Dear Bim: Yours was one of many letters expressing this point of view.

Interestingly enough I received almost as many letters telling me I was cuckoo to defend the "bimbos"—and that unless I had worked a night shift I was not qualified to comment.

Of course some night shift girls are jollying a bit with the boys, but they're doing the same thing if they worked afternoons.

Dear Ann Landers: I'm 22 and the mother of two small children. My husband and I have had numerous arguments about my attending baby showers, and an occasional club meeting in the evening. I usually stay home to avoid a fight.

I'm tied to the house all day because we can't afford help. The only opportunity I have to get out is when I attend a shower or a club party. I would be satisfied with one evening out every three weeks.

He thinks nothing of going fishing with his friends on his days off, because he says a man has to be "unwind." But he doesn't see why a woman needs a change of scenery.

I'm becoming irritable and resentful. I scream at my kids and feel like a prisoner in my own home. Can you help me?—IN-CARCERATED

Dear Incarcerated: You should have your night out every three weeks plus one evening out together at least once every other week.

A sitter is a bargain compared with the cost of a nervous breakdown or a shattered marriage. Show this to your husband and tell him to grow up and get off the dime.

Everett Dennis, Realtor, is proud to announce the Association of Anne Mason.
