

PROTEST MARCH — In Birmingham, Ala., some 30 Negroes halted in a protest march to city hall, kneeling on the sidewalk for minutes before they were arrested for parading without a permit. It marked the fourth day of demonstrations here protesting racial segregation. Leaders of the "prayer march" was Rev. F. L. Shuttlesworth. — UPI Telephoto

Bank Theft Suspect Held For Hearing

LOS ANGELES (UPI) — A 26-year-old suspected bank robber, who was nabbed shortly before his name was to be added to the FBI "Most Wanted" list, faces arraignment Monday before a U.S. commissioner.

FBI agents arrested Richard James Young without incident Friday night at International Airport although he was reputed to have boasted he would never be captured without a fight.

Agents said Young and James T. Hollywood were wanted in connection with the robbery last Jan. 24 of the Eastport Plaza Branch of the U.S. National Bank in Portland, Ore., in which \$33,469 was taken.

Hollywood was arrested the morning following the robbery near Cottage Grove, Ore., and some of the bank loot was recovered, agents said.

The FBI in Portland said a story was widely distributed saying Young was placed on the "most wanted" list before his location was determined.

Young also was sought for unlawful flight from prosecution from the state of Washington in connection with the armed robbery of a Kirkland, Wash., market, agents reported. The market lost \$2,200 in the theft last Dec. 1. In addition, Young was wanted for questioning in two 1961 bank burglaries in Washington.

Agents said Young, a native of San Diego, Calif., had a 20-year record of criminal offenses.

Young's wife, Judith, 24, was arrested last Thursday in San Francisco along with Seattle attorney Ned E. Hett, 28, agents said. A material witness, she was placed under \$10,000 bond and faced return to Seattle Saturday.

Hett appeared Friday in U.S. District Court for an extradition hearing on charges of being an accessory after the fact in the flight of Young. Federal Judge George B. Harris ordered him returned to Seattle, along with Mrs. Young.

The attorney and Mrs. Young were arrested while driving a car allegedly purchased by Young in Santa Monica, Calif., agents said. They were accompanied by Mrs. Young's son, Victor Mark Benner, 3, by a previous marriage.

Agents said they also seized a 45 caliber automatic and ammunition similar to a weapon Young reportedly used in the holdups.

Encyclical Said Outline Of Atomic Era Duties

VATICAN CITY (UPI) — Pope John XXIII's new encyclical on peace is expected to be a major pronouncement on the duties of Roman Catholics in the atomic era.

The Latin language encyclical "Pacem in Terris (Peace on Earth)," reported to run 20,000 words or longer, is undergoing final changes in phrasing. It will be issued during Holy Week, probably next Thursday.

Although its contents are secret, Catholic sources have predicted it will be a full "theological treatise on peace in the 20th Century."

They said it is likely to go far beyond simple appeals for good will to analyze such atomic age situations as the cold war.

These circles said it was felt that events since World War II have broken the patterns of traditional doctrines on peace and war. The danger of total atomic destruction, these circles felt, may require a reassessment of distinctions between different kinds of war. The cold war and localized

Negroes Kneel To Pray As Police Halt Parade

BIRMINGHAM, Ala. (UPI) — About 40 hymn-singing Negroes dropped to their knees on the sidewalk and prayed Saturday when police halted their march on City Hall to protest segregation. All were arrested.

Strike Halts Construction In Illinois

By United Press International
A Southern Illinois carpenters' strike shut down construction projects valued at millions of dollars Saturday and nuclear work at the Nevada test site remained cut off with a three-day walkout.

Cleveland newspapers prepared for a press run Monday—the first in nearly four months. Negotiations resumed in Washington in an effort to reach agreement in the threatened strike by machinists of the Boeing Co.'s missile-making facilities.

Other labor disputes across the nation continued.

Carpenters and contractors in Southern Illinois were at an impasse Saturday, with no talks in the week-long walkout scheduled until next Friday.

Picket lines were put up in 14 Illinois counties Friday, idling projects at the \$12 million maximum security federal prison near Marion, Ill., and at Southern Illinois University and Anna State Hospital Bridge construction and highway improvements also ceased when other craft unions refused to cross picket lines.

The walkout of some 3,100 employees at the Nevada test site, sanctioned by the 33-union Central Labor Council, was termed the "most effective ever" in the history of the nuclear facility.

Union officials called the strike to protest orders by the Atomic Energy Commission to slash workers' travel pay and shift differentials. The cutbacks, instituted in January, cost each employee about \$25 a week, the unions said.

Editorial and mechanical personnel reported to work Friday at Cleveland in a big push to get the city's two newspapers back on the streets by Monday. The marathon strike, longest in newspaper history, cost publishers and employees an estimated \$25.4 million.

Conflict have created situations which do not fit into the old patterns, they said.

Among other new problems, the sources cited the role of U.N. troops as an international police force, the church's attitude towards conscientious objectors and the duties of Catholics serving in the armed forces.

The sources said the encyclical is expected to analyze all these problems from separate theological, moral, juridical, social and economic viewpoints.

These circles said it was felt that events since World War II have broken the patterns of traditional doctrines on peace and war. The danger of total atomic destruction, these circles felt, may require a reassessment of distinctions between different kinds of war. The cold war and localized

Colored Comedian Vows Battle For Negro Cause

NEW YORK (UPI) — Negro comedian Dick Gregory said Saturday it was great "to be back from behind the cotton curtain," but vowed he would return to Mississippi "at once" if racial problems explode there again.

Gregory, who arrived by plane Saturday to discuss booking arrangements with his manager, said that for awhile during the past week he never expected to leave Greenwood, Miss., "in one piece."

Referring to a Negro rally in a church during which "many of us" feared the outbreak of violence, Gregory said:

"It's not a pleasant feeling to be inside a church and waiting for it to blow up," he said.

But Gregory, who joined other civil rights leaders in spearheading a Negro voter registration drive, said he would not hesitate to return "if the concessions we were promised are not carried out."

"Not only will I leave a night club engagement if I happen to be involved in one," he said, "but I'll walk right out in the middle of my act."

The entertainer, whose acid quips on racial problems has qualified him as one of the modern comics currently in vogue, left the Mississippi Delta town Saturday morning.

"I feel the situation has improved about as much as it could," he said before leaving.

"We got all we can get out of them."

Gregory, who led several voter marches here, had vowed to remain for 10 years if necessary to "put down police brutality." However, city officials denied making either promise.

Scheeheadze talked for 1,001 nights to keep her husband from killing her.

Friday he said he would leave as soon as \$6,000 was raised to free on bond 12 marchers convicted in city court Friday.

The Chicago entertainer said he would put up the money if it could not be raised locally.

The executive director of the Student Non-Violent Coordinating Committee (SNCC), James Foreman of Atlanta, said he too plans to leave during the weekend. "We feel the situation is less tense," said Foreman, one of the first group of marchers to be arrested.

City Commissioner B. A. (Buff) Hammond agreed Friday to furnish bus transportation to the Leflore County Courthouse for Negro voting applicants. The transportation was asked by Foreman and Hammond said the school bus "will be available this week if the same conditions prevail and we think it is expedient to use it in order to prevent incidents."

"Fair enough," said Foreman. Gregory, manhandled by police during one of the marches, had announced Wednesday he was cancelling all his night club engagements indefinitely "to stay here and fight this thing until the government sends in troops."

Friday he said "the attitude has been changing for the past two days."

"We got the buses and the right for groups of 20 or less to walk to the courthouse," Gregory said. However, city officials denied making either promise.

DEPUTY KILLS WORKER — Deputy Sheriff James R. Hill is shown after his arrest when he apparently went berserk while guarding two prisoners awaiting treatment at Highland Hospital in Oakland Friday. Hill, without warning, fired six bullets through glass door, right, at stenographer Mrs. Janet Corby, killing her instantly. He then threw down his gun and sobbed, "God told me to do it." Apparently Hill did not know Mrs. Corby at all. — UPI Telephoto

Deputy Kills Stenographer

OAKLAND (UPI) — A veteran sheriff's deputy suddenly and inexplicably fired six shots through an office door at Highland Hospital Friday, killing a stenographer he had apparently never met.

The officer, James R. Hill, 36, then threw pistol to the floor, fell to his knees and began sobbing.

He told arresting officers, "God told me to do it."

The victim was Mrs. Janet Corby, 38. She was killed instantly when a bullet struck her head as she was typing at her desk.

Investigators had no explanation for the shooting. "As far as we know, Mrs. Corby was a complete stranger to him," said Alameda County Sheriff Frank Madigan.

Hill, who was a University of California graduate and an 11-year veteran on the sheriff's staff, had been escorting two prisoners from the Santa Rita Prison Farm Clinic to the hospital.

Police said he was seated on a bench with the prisoners when he suddenly stood up, pulled his .38 caliber pistol from his holster, and opened fire at the outline of Mrs. Corby through a frosted-glass door.

Hill, married and the father of

Bowles Named To India Post

WASHINGTON (UPI) — President Kennedy Saturday announced his selection of Chester Bowles as U. S. ambassador to India.

The chief executive said he would send to the Senate for confirmation the nomination of Bowles to succeed Ambassador John Kenneth Galbraith who is resigning in June.

It will be the second time Bowles has held the post.

Bowles, a former undersecretary of state, has been Kennedy's special representative and adviser on African, Asian, and Latin American affairs since December, 1961. He previously served as U. S. ambassador to India and Nepal from 1951 to 1953 during the Truman administration.
