A REVOLUTIONARY ACHIEVEMENT

the magnificent

Magnavox

new ASTRO-SONIC Stereo High Fidelity

this space-age technology surpasses all previous advances in high fidelity... produces ten times more music power than the average tube sets

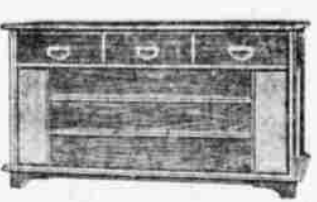

ASTRO-SONIC 100, model 1-ST680
18th Century English—FM/AM, Stereo Radio Phonograph.

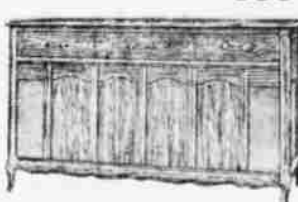

The Astro-Sonic has such great tonal dimension it can fill a concert hall like a great symphony orchestra — and in your home can "whisper" the full beauty of music or shake the walls with the crescendo of a great symphony orchestra — yet all this without a single tube!

Now solid state circuitry — a by-product of the billion dollar space age — provides greater Stereo FM/AM performance with more audio power — has ten times the efficiency of comparable tube sets — yet uses but 1/10 the power — no more than a small electric light bulb.
