Potato Plea Answered

TULELAKE — The Tulelake Growers Association has been assured that steps are being taken by the Fruits & Vegetable Division, U.S. Department of Agriculture, to comply with a request to extend the potato diversion program until May 31, 1963. Conclusion date was previously set for April 30.

The telegram received Thursday from E. J. Holcomb, acting chief of the Vegetable Branch, was in answer to one sent April 22 by TGA Manager John S. Wynn requesting the extension of time.

The added period will provide for a more orderly disposal of the 1962 crop of potatoes remaining in storage through fresh market, livestock feeding and starch production channels.

The proposed extension will benefit all growers in the Klamath Basin who still have potatoes in storage.

Fire Mistake

Fire trucks from the Klamath Falls central fire station and substation were dispatched to the Juvenile Home, Alameda and Eberlein avenues, about 8:35 p.m. Thursday, after it was reported that the building was on fire, according to fire department headquarters.

Firemen went to the home and learned that the report had been erroneous. The person who reported the blaze had seen a fire at the Old Fort Road dump which, from a distance, appeared to be located at the site of the Juvenile Home, firemen said.

WARNS PLASTERED DRIVERS
LONDON (UPI) — Dr. Stephen Young, writing in the British Medical Journal, said today it is wrong for patients with plaster casts on broken arms or legs to drive to the doctors office for a checkup.

"As always, a plastered driver is dangerous," he said.
