Shrinks Hemorrhoids
New Way
Without Surgery

STOPS ITCH—RELIEVES PAIN

For the first time science has found
a new healing substance with the
astonishing ability to shrink hem-
orrhoids and to relieve pain—without
surgery.

In case after case, while gently
relieving pain, actual reduction
(shrinkage) took place.

Most amazing of all—results were
so thorough that sufferers made
astonishing statements like "Piles
have ceased to be a problem!"

The secret is a new healing sub-
stance (Bio-Dyne®)—discovery of
a world-famous research institute.

This substance is now available
in suppository or ointment form
under the name *Preparation H*®.
Ask for it at all drug counters.

Let's Draw a Jellyfish

By Ann Davidow

Here's a creature soft as jelly,
Floating gently on his belly.

Dangling many arms, he wishes
Maybe he will catch some fishes!

Johnny Appleseed By Ragna Eskil

He was born in New England in 1775.
His real name was John Chapman, but
history remembers him as "Johnny Ap-
pleseed." Johnny Appleseed was the name
by which he was known to the early set-
tlers of Ohio and Indiana in the days when
that area was a great wilderness.

He was a most welcome visitor to the
log cabins of these pioneers for he brought
with him something that
was dear to them from
the homes and farms
they had left behind in
the Eastern settlements.
Apples! He carried
a huge bag with him,

and in it he had thousands of apples and
tiny saplings.

When he'd come to a clearing, he'd plant
some of his seeds and saplings. Perhaps
he'd stay overnight with the grateful family
living nearby, and there'd be talking, sing-
ing, and laughing. Then he'd go back time
and again to see how his trees were faring,
and when they bore fruit he'd take seeds

from these apples to
plant somewhere else.
It is not surprising that
stories and songs were
written about him.

We should be proud of
Johnny Appleseed!
