

GASOLINE ALLEY

Wallet! What a beautiful outfit!

Fancy, eh, Fracas?

Yes, I plan to do a lot of outdoor cooking this year.

Put on plenty of charcoal, Skeezix. We want a nice big fire.

Not too many, of course. No use wasting them.

Okay, Nina.

You'll want to sear both sides of the beef and then put the top down like it says in the booklet, honey.

Fine.

And don't turn it with that fork—piercing the meat lets out the juices!

Okay, okay!

Just one thing more, Skeezix—

Now wait a minute, Nina!

I've been telling Fracas I was going to do some outdoor cooking.

Yes?

Had I better change that "I" to "we"?

I have a better idea, Wallet!

Change the "we" to "she"!
