

ENJOY EACH OTHER — Actress Elizabeth Taylor and actor Richard Burton continue to enjoy each other's company. At left, the co-stars of "Cleopatra" are shown laughing it up at a Rome night club. At right, Miss Taylor breaks up a rehearsal as the fickle Burton during a scene being readied for the movie.

# Producer Says 'Cleopatra' Will Exceed \$100 Million

By JACK GAVER  
UPI Drama Editor  
NEW YORK (UPI) — Eighteen months ago I lunched with motion picture producer Walter Wagner, who mentioned the sum of \$100 million somewhere between the aperitif and the entree.

Having just scanned the menu, I thought for a second that he was referring to the prices. Then my reflexes got the better of the aperitif, and I realized he actually had said:

"'Cleopatra' will gross \$100 million," referring to the super-colossal film he was in the midst of conceiving in Italy.

This, mind you, two months before the eruption of the "romance of the century," involving stars Elizabeth Taylor and Richard Burton, that resulted in a publicity saturation such as no other film has received.

Inside the theater will be a smartly dressed audience of 1,629 that will have paid \$100 and \$75 each for the privilege. Notables will be a dime a dozen. The first night is a benefit affair, with the approximately \$150,000 gross going entirely to the Will Rogers Memorial Hospital.

A spokesman for 20th Century-Fox, the producing company that needs a "Cleopatra" bonanza to cure its financial ills, estimated that the newspaper, television and radio coverage of the premiere will be the largest ever accorded a theatrical event.

"People are coming from all over," he said. Special platforms will be erected outside the Rivoli to accommodate

photographers and others reporting the opening.

Much Spectacle  
There will be spectacle enough without the presence of Miss Taylor and Burton, who have indicated in London that they do not plan to come over for the premiere.

However, the 20th Century-Fox home office here keeps hoping the stars will change their minds, possibly at the last minute.

"You never know what they'll do," the spokesman said.

# BOX OFFICE NOW OPEN FRANCE RIVOLI ON BROADWAY

WANTS IN ACT — Rex Harrison, upper right, is not the peeping tom he appears to be on this poster for the film "Cleopatra," showing lovers Elizabeth Taylor and Richard Burton, above the Rivoli Theatre in New York. This arrangement was concocted when Rex, the film's third star, demanded to be included in the sign which originally showed only Liz and Burton. Love epic has its world premier at the Rivoli on June 12. — UPI Telephoto

# Celebrating Tourists Make Effort To Correct Leaning Tower Of Pisa

PISA, Italy (UPI) — Some French tourists were celebrating New Year's eve here in 1958 when one of them suddenly thought: "Why don't we straighten the leaning tower of Pisa?" So they drove to the tower, hooked one end of a steel cable to the base of the structure and the other end to the rear axle of their car.

Then they jumped in the car and stepped on the gas. — Car leaning across the square — rear axles behind its rear axle and a tower that was still leaning. The tower is one of those things that everybody talks about and a lot of people try to do something about — but nobody ever does. Recently the talk has been getting more earnest than ever. Prof. Letterio Donato of the Pisa University engineering school, said the tower may collapse "within our generation."

Geologists at the engineering faculty at Pisa gravely announced that the tower is leaning an additional .033708 of an inch each year. In the past 44 years, they said, this has added up to a grand total of 1.4531152 inches. The tower is now some 14 feet out of true. Geologists at the engineering faculty at Pisa gravely announced that the tower is leaning an additional .033708 of an inch each year.

That's what many authorities on child health are saying nowadays. They view with growing concern the lack of vigorous activity that once kept young bodies "inshape." They strongly urge more daily exercise to improve the physical condition of every girl and every boy. What can you do about this problem? First, you should find out about the physical education program in your child's school. Talk it over with your local school officials. If your child's school doesn't have a program calling for at least 15 minutes of vigorous activity every day, urge the adoption of a program that will do so. A basic program has been developed which any school can easily get started. For information about it, write to The President's Council on Physical Fitness, Washington 25, D. C.
