Don't Be Mouselike

By OSWALD JACOBY
Newspaper Enterprise Assn.

In rubber bridge you should take plenty of chances in order to make your contract but in duplicate a player will occasionally decide to play safe for a small set on the theory that other players will be going down more.

This mouselike approach works on occasion, but generally you will do better to gamble for whatever contract you are in. At the Southeastern championships in Miami, West selected the three of clubs as the least hopeless of all the leads at his disposal. South won the trick and led a heart to dummy's queen.

East won with the ace and led the nine of spades. South's ten lost to West's queen and back came the deuce of diamonds. At this stage of the proceedings it was up to South to gamble for his contract. He could see that most players would have stopped below game and that it was up to him to take every chance in order to make this three no-trump.

Thus he should have gone up with the king of diamonds. When it held he could run off his clubs and wind up by finessing against the jack of hearts.

However, south decided to play safe. He played a low diamond. East won and led a spade to his partner. West might have played another low diamond, but West simply cashed his ace and chalked up a one trick set.

Q—The bidding has been:
East South West North
3 4 Double Pass 4 4
Pass
You, South, hold:
A K J 9 7 A Q 8 6 K J 4 3
What do you do?
A—Bid four no-trump. Your partner has shown a strong hand and asked you to choose a suit, but you prefer that he choose the suit.

TODAY'S QUESTION
Your partner bids five clubs. What do you do now?
Answer Tomorrow

FRIENDLY CIRCLE, 12:30 p.m., potluck and meeting, Kathryn Billings, 2144 Greensprings Drive.

Pushy Parents Often Ruin A Child's Life

By ANN LANDERS

Dear Ann Landers: My brother and his wife have an only child who is 10 years old going on 18—if you know what I mean. They take the girl everywhere, claiming she is very mature and fits in with adults beautifully. She is mature, for her age. Ann, but she is still a 10-year-old child.

Some of their friends have simply stopped inviting them over because they insist on bringing the girl. It is not so easy for a relative, however.

Last week we had a dinner party. Since it was on a school night we felt certain they'd leave the youngster at home, but they did not. The evening was ruined by the child's presence. Her mother insisted she give several readings and the guests were bored stiff.

After they left we decided this was the last straw. Shall we not invite them in the future and risk a breach in the family? Or shall we tell them they cannot bring the girl to our adult parties?—ENOUGH IS ENOUGH

Dear Enough: Tell them—which is what you should have done ages ago. Perhaps these parents don't realize that adults resent the intrusion of a 10-year-old. Moreover, it's not good for the child. These overly mature kids can turn out to be obnoxious little characters if they've been the center of attraction too often and too long.

Dear Ann Landers: As a Swiss I am compelled to comment on the letter written by a compatriot of mine. I cannot decide whether she is ignorant of the common usage of the English language or if she truly believes that a woman who does manual work cannot be classified as a lady.

The latter assumption would seem unlikely from an individual whose country prides itself on being the cradle of Europe's oldest democracy.

I, as a loyal Swiss, feel that such statements reflect poorly on all of us. It is too bad this ambassador of ill-will does not keep herself hidden in the mountains where she can do no harm.—HEIDI

Dear Heidi: Many Swiss wrote to complain about the poor impression "Swiss Mrs." had projected. No group should be judged by the behavior of one individual. And I agree emphatically that we should not judge the Swiss by this one.

Dear Ann Landers: Our daughter was married two years ago to a nice boy. It took us a year to pay off the debts from her wedding. We also helped furnish their apartment. Since they were both working and going to college they ate most of their meals with us. They had a darling baby girl.

Oregon Tech Completion Included In 8 College Projects

CORVALLIS (UPI)—The building committee of the State Board of Higher Education Monday approved application for federal planning funds for eight college building projects.

The buildings are to be built with money from a \$12.5 million bond issue if the voters approve it next May. The 1963 legislature authorized the sale of the bonds, dependent on voter approval.

In the meantime, the committee voted to ask the U.S. Housing and Home Finance Agency for funds so that planning can be underway if the bond issue is approved.

The projects include a second unit of the Portland State College library, and additions to the physical education building at Southern Oregon College, University of Oregon library, University of Oregon science building, Oregon College of Education library, University of Oregon Medical School library, Oregon State University pharmacy building and OSU's Cordley Hall.

The committee also fitted nine building projects originally estimated to cost more than \$12 million into an \$11.5 million allocation from the legislature.

Campbell Hall Work
Those projects are replacement of Campbell Hall at Oregon College of Education, completion of the Oregon Technical Institute plant, a new heating plant at the University of Oregon Medical School, a utility tunnel extension at Oregon State, a \$3.4 million physical education building at Portland State, classrooms and laboratories at Southern Oregon College and OCE and a science and mathematics building at Eastern Oregon College.

In other action, the committee authorized completion of final plans for replacement of Campbell Hall, accepted preliminary plans for Oregon State's new marine science laboratory at Yaquina Bay and a new dormitory at OCE, authorized acceptance of the vessel Yaquina from the General Services Administration for use as an OSU ocean research ship and approved revised plans for a new University of Oregon student health center.

The actions by the committee were expected to be approved by the full board today. The board's finance committee approved a recommendation from Chancellor Roy L. Lauen that the student building fee at all institutions be reduced from \$12 to \$10 and approved requests that out-of-state students applying for admission to Oregon, Oregon State and Portland State pay a \$50 deposit. The latter action is designed to permit school officials to predict fall enrollment accurately.

The board also asked Atty. Gen. Robert Y. Thornton for an opinion on whether Portland State College can build a multiple-story parking facility to be used partly by the state motor pool.

George Belton, 87, former, long-time resident of Klamath Falls, died June 10 in Medford after a short illness. He was employed by Southern Pacific Railroad in Klamath Falls for nearly 20 years and had been retired since 1940.

He had lived in Medford since his retirement. Mr. and Mrs. Belton had recently observed their 63rd wedding anniversary.

He is survived by the widow Anna, Medford; one son, George Belton Jr., Portland; five daughters, Mrs. Mavis Westlund of Klamath Falls; Mrs. Muriel Joneschiet, Jackson, Calif.; Mrs. Vivian Bakke, Portland; Mrs. Lillian O'Brien, Medford, and Mrs. Frances Huerby, Santa Rosa, also seven grandchildren, and 15 great-grandchildren.

Interment will be at Medford. Conger-Morris Funeral Home is in charge of arrangements.

Early Day Settler Dies

FORT KLAMATH—Robert Gordon in his late 70s, a native of Butte Falls, Ore., and an early day settler of the Wood River Valley, died recently in the Rogue Valley Hospital in Medford. Interment was in the Butte Valley Cemetery.

He first came to Fort Klamath in 1900 and with his brother Henry, leased several meadow ranches, and harvested and sold hay. He later went to Medford to operate a motion picture theater but returned in 1925 to work as ranch foreman for Jim and Seth Dixon, Wood River Valley cattlemen. Following Jim's death he continued with Seth Dixon and had been in his employ for 33 years before retiring.

Mrs. Gordon (Ora) died in 1953 and Mr. Gordon went to Medford to live with a sister who with several nieces and nephews survive. The couple had no children. He was an honorary member of the Wood River Pioneers and Oldtimers.

Auto Burned

City firemen extinguished a fire in an automobile about 3:29 p.m. Monday at South Ninth Street and Klamath Avenue, the Klamath Falls Fire Department has reported. The blaze started following a backfire and resulted in minor damage to the car.

AUTOPHARMACY
NEW YORK (UPI)—A machine that automatically dispenses 96 different drugs is being used by a hospital in Seattle, Wash., according to Electronics, a McGraw-Hill publication. Prepackaged drugs are dispensed and the transaction recorded by the machine when plates identifying the drug desired, the nurse and the patient, are inserted.
