

# Ike's Talks Show Favor To Romney

WASHINGTON (UPI) — Former President Dwight D. Eisenhower's favorite project, the National Republican Citizens Committee, has a George Romney favor about it despite all its disavowals of interest in presidential possibilities.

Eisenhower is applauding the enlistment of amateurs and citizen movements in behalf of Republican candidates. Romney of Michigan has said the nation needs a "citizens party" and that the GOP is the best vehicle to provide one.

The year-old citizens committee completed a two-day workshop at Hershey, Pa., Friday with Eisenhower as its most prominent participant.

Republican professionals, who instinctively distrust citizens' groups in politics, have long suspected it was formed to write GOP policy and to prevent the nomination of Sen. Barry Goldwater of Arizona for the presidency.

The meeting opened Thursday with a statement from C. Wrede Petersmeyer, workshop chairman and New York broadcasting executive, that it would not talk about candidates.

The participants did refrain from such talk although they were reported to include participants of Romney, Goldwater and Gov. Nelson Rockefeller of New York in varying numbers.

However, the citizens' group did talk about the possibility of issuing policy statements intended to reflect the viewpoint of all Republicans on basic issues. Any such moves would be viewed suspiciously by Republicans in Congress, who regard themselves as party policy makers during a Democratic administration.

# JFK Slates India Trip

NEW DELHI (UPI) — Prime Minister Jawaharlal Nehru said Saturday President Kennedy has accepted an invitation to visit India and probably would make the trip this winter or early next year.

Kennedy, scheduled to leave on a European trip this month, has not been to India although his wife received tremendous attention when she toured the country last year with her sister-in-law, Princess Lee Radziwill.

Former President Eisenhower also received a wild welcome when he visited India while he was in office.

A Kennedy visit would welcome here as reinforcing U.S. support for India in the face of threats from Red China.

Nehru said Saturday that the Chinese Communists have built 25 new posts along the border between northern India and Tibet, six of the positions in violation of peace proposals by neutralist Asian nations which met at Colombo earlier this year.

"Our protest notes have gone to them," Nehru said.

He said the Chinese have been building a network of roads in Tibet and have concentrated troops within 50 to 100 miles of the border.

"The roads could carry them there in a day or two," Nehru said. "It's difficult to say that they're especially making preparations for an attack. The probability seems that in the near future they will not attack."

# Shoplifter Not Bashful

DOWNEY, Calif. (UPI) — A 25-year-old mother Saturday chose to carry a sign through downtown department stores that proclaimed her as a shoplifter rather than go to jail.

Municipal Judge Leon Emerson said he gave the choice of carrying the sign or going to jail to Viola Louise Cheek because she has two infant children.

The judge said Mrs. Cheek had admitted "shoplifting at least twice a week in California and Texas for about six years."

# LOST OCEAN?

Modern maps no longer show the Antarctic Ocean. With our expanding knowledge of the world, we have learned that the Antarctic is really a continent, not an ocean.

# Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were

# THE WIZARDS OF SPACE (6)

By Don Oakley and John Lane

America has three major spaceports from which it launches men and instruments:

• **WALLOPS ISLAND.** Oldest of the spaceports, Wallops was established by the old National Advisory Committee for Aeronautics in 1945 off the Virginia shore as a branch of Langley Research Center. Since then, over 5,000 research vehicles, mainly sounding rockets, have been launched from Wallops, more than from any other site.

Though it concentrates on short-range, sub-orbital flights (the first Mercury capsules were tested here), Wallops has orbited three satellites—Explorers IX, XIII and XVI—using the four-stage, solid-fueled Scout rocket developed at Langley.

• **PT. ARGUELLO.** NASA's Pacific Launch Operations Office, located about 180 miles north of Los Angeles, is the only spaceport from which satellites can be placed into polar orbits without crossing populated areas. First land due south is Antarctica, 6,500 miles away.

Most important mission for this spaceport will be the launching of seven Nimbus advanced weather satellites over the next two years.

• **CAPE CANAVERAL.** The most valuable sandbar in the world, this is the largest and most glamorous of the spaceports. To be exact, Cape Canaveral is the 15,000-acre reservation operated by Department of Defense, which also maintains the tracking stations along the Atlantic Missile Range.

The civilian spaceport at Cape Canaveral—NASA's Launch Operations Center—will soon be headquartered to the north on 87,000-acre Merritt Island. From here missions to the moon and beyond will be launched.

Construction began this year on the first of 40 buildings on Merritt Island. Among them will be a gigantic 52-story, \$100 million "shed" where Saturn V moon rockets will be readied.

Huge 5½-million-pound crawler transports costing \$4 to \$5 million each will inch the Saturn and its launch equipment—400 feet high and weighing 12 million pounds—about two miles in two hours to a launching pad for fueling, final tuning and boarding by astronauts.

NEXT: Langley Research Center

# Mystical, Mysterious Black Muslim Movement Increasing In Nation Behind Georgia-Born 'Messenger Of Allah'

By H. D. QUIGG

United Press International "As-salaam-alaikum" (Peace unto you) says the gifted speaker on the stand. And the faithful gathered below respond: "Wa-alaikum-salaam" (And unto you be peace).

"The message of God to the honorable Elijah Muhammad was: 'Complete and immediate separation of the slave master and his slave,'" the speaker tells them. "No mixing. And a separate Negro state."

The Elijah is a Georgia-born Negro, now in his mid-60's, who leads a membership of American Negroes that competent observers estimate at more than 100,000. They are law-abiding to the last letter, clean, debt-paying, non-smoking, non-drinking, non-narcotics, non-gambling, and bitterly non-white man.

Elijah Muhammad, born Elijah Poole, has as one of his titles "Messenger of Allah" to the "Lost-Found Nation of Islam in North America." That last is the official name of the movement, most often called Black Muslims.

In their more than 40 temples the white man is known as "the devil" or, as Malcolm X, Elijah's chief lieutenant says, the Koran calls him: "the guilty blue-eyes."

## Claim Islam Membership

They and their leaders consider themselves to be members of the great international religion Islam, whose followers are called Muslims (or Moslems), whose prophet was Muhammad (or Mohammed).

# Doctors Aid Mexican Boy

BEVERLY HILLS, Calif. (UPI) — A 14-year-old boy from a small village in Sonora, Mexico, Saturday awaited a second plastic surgical operation to correct a congenital cleft palate deformity.

Anselmo Chavez was scheduled to undergo the operation Monday at the nonprofit Beverly Hills Doctor's Hospital. The operation is being performed free by an anonymous group of plastic surgeons and anesthesiologists.

The youth was first operated on May 16th. The surgeons closed the cleft palate successfully. The second operation calls for the closing of his parted lip and nose.

"Anselmo fully understands what we doctors are trying to do for him and is both happy and appreciative," said Dr. Jack R. Magt, director of the hospital.

The deformity of Anselmo was noted by a dentist, Dr. Bert Sabo of Montclair, Calif., who went to Mexico to recover a crashed stolen plane, near the village of Mesa De Jalindro in Sonora.

Dr. Sabo noticed Anselmo's cleft palate deformity and recalled that a group of flying medical missionaries treated villagers as a charity project.

The dentist contacted the Doctor's Hospital and the boy was flown here for corrective surgery.

# WINNINGEST JOCKEY

Eddie Arcaro was the greatest money-winning jockey in racing history at the time of his retirement in 1962, according to the Britannica Book of the Year.

lammed) and whose holy book is the Quran (or Koran). The Black Muslims pray five times a day, facing Mecca, the holy city. (The orthodox Muslims in America have rejected the Black Muslims.)

The Black Muslims are morally straight, keep down juvenile delinquency in their families by exemplary conduct at home, and try to improve the community around them, clean it up as they do their persons.

They abjure Christianity and make light of it. Although they scorn non-violence, they are told to be peaceful unless attacked. When the battle of Armageddon comes, in 1970 or 1972, it is rather vague (as is true of much about

# Cubans Plan Launching

HAVANA (UPI) — Premier Fidel Castro will speak Tuesday from Cardenas, Matanzas Province to mark the launching of 17 new Sigma-model fishing boats, it was announced.

(Cardenas is the port which ex-raidiers claimed to have shot up last week, damaging the Archabala alcohol distillery.)

It will be Castro's second major address since his return from the Soviet Union on June 3.

Carlos Rafael Rodriguez, president of the National Institute of Agrarian Reform (INRA) analyzed the present agricultural production dip in an address to 123 people's farm graduates of a "revolutionary instruction" indoctrination course Friday night.

Now that rural people can work all year around sometimes the hardness of the labor leads them to abandon the tasks which are essential for agriculture, in detriment of the economic development of the nation," he said.

Radio stations Saturday called upon all citizens to turn their extra wire coat-hangers in for redistribution to drycleaning plants.

# Drunk Driver Gets Break

SACRAMENTO, Calif. (UPI) — The senate Saturday passed a bill to allow probation for persons convicted a second time of drunk-driving.

But the measure by Assemblyman John Moreno, D-Santa Fe, would not lessen the penalty.

Sen. Thomas M. Ross, D-Los Angeles, who carried the bill in the senate, explained that it would allow judges to require the drivers to attend traffic school or join Alcoholics Anonymous as a part of their probation.

The bill must return to the assembly for concurrence in a senate amendment before going to Gov. Edmund G. Brown.

Michigan pioneered roadside picnic sites on its highways.

the Black Muslims) just what they'll do.

**Predict Black Dominance**

One version is that white rule in the United States will be overthrown. Another is that the white nations would destroy each other, leaving the black nations in charge ("Blacks" mean, to the movement, all skin colors, brown, yellow, red, chocolate—except white—of the African, Asian, Middle Eastern, and American areas).

Malcolm X can get up in public mass meeting on the street and say things like: "We rejoice when the white man dies." Yet he testified in federal court in Buffalo, N.Y., that the Negro Muslims are not a hate organization: "Elijah Muhammad never taught us to hate anybody."

One source guesses Black Muslim membership in Chicago at 20,000, in New York at 15,000, and names Detroit, Los Angeles and St. Louis as other main centers, although perhaps 100 cities are involved.

**Withdraw From America**

In his recent book "The Negro Revolt," Negro author Louis E. Lomax says of the Black Muslims:

"Their withdrawal from America is almost complete. They speak of themselves as a 'nation,' indicating that they are not of the American body politic; they do not vote nor do they participate in political affairs. The Muslim women keep their heads covered at all times; they wear the long, flowing, white skirts one associates with Islam. They have

# Diver Finds Ancient Guns

VALE (UPI) — A young seaha diver working on a routine salmon migration problem for the U.S. Fish and Wildlife Service has discovered a mysterious cache of old guns in the Snake River.

Jack Gallagher, a diver from Massachusetts, turned up nine guns from a water worn eddy a few miles downstream from Swan Falls in the Snake River Canyon. James Brinda, Ontario, Ore., said the diver, a research biologist, was checking the river bottom for metal salmon tags when he pulled an old gun free from the mud and sand in about 11 feet of water.

On three additional dives Gallagher brought up eight guns, ranging from Revolutionary War vintage flintlock type to Civil War Henry repeaters. The metal parts of the weapons were well preserved.

Brinda estimated from erosion of the wood parts that the guns had been under water from 65 to 80 years. How they got there is uncertain.

# 11-Year-Old Gives Up Job As Signalman For Airline

ELY, Nev. (UPI) — When George Linnell recently gave up his daily task as signalman for United Air Lines the firm gave him a cake, a party, a service pin and cited him for "capable and untiring efforts."

Mayor E. N. Broadbent of Ely shook his hand and wished him well.

All of which was more than slightly unusual because George is just 11 years old.

George's career began in 1957 when United began flying to Ely and the boy's mother took him out to see the Convairs land. Most boys would have enjoyed this, but with George the planes took a stronger hold. He began to insist that his parents take him to Yelland Field each day at 11:30 a.m. and 3 p.m., when the planes landed. This wasn't easy because the Linnell home is five miles from the field, but his parents gave in, thinking the fad soon would wear off.

It didn't. Not long afterward the boy's mother, Betty, noticed two of her table knives were missing. Then she saw George waving them in the air in motions which she recognized as signals used in parking aircraft.

Next time she took the boy to Yelland Field he stood outside the fence and mimicked the signalman. He practiced until he was perfect, then badgered his father, Erling Linnell, into making miniature copies of regulation signal paddles. Day after day the boy stood outside the fence and waved the Convairs to their parking places.

The pilots and ground crew noticed him and began paying attention. After developing his technique, George was allowed actually to signal parking of the aircraft. He became a favorite not only of United employes but came to know the regular passengers who traveled to and from Ely.

Finally, the boy's other activities became too much and reluctantly he "retired" from United. A regulation cap and insignia for the boy's jacket long before had mysteriously appeared. Now he was given an authentic five-year service pin for his efforts.

Not wanting to let the airline down, George began training his younger brother, Ernie, 5, to take over.

But George plans a comeback, when his education is finished and he's legally old enough for a job.
