

Board Favors Foster Homes For Infants

PORTLAND (UPI)—The board of directors of United Good Neighbors (UGN) in the Portland area has voted for a resolution favoring foster home care rather than institution care for normal infants.

The resolution, in varying degrees, the Albertina Kerr Nursery, Waverly Baby Home and Our Lady of Providence Nursery. These are said to be the only "baby homes" in the 11 western states which care for normal children.

The UGN resolution means that eventually the placing of normal children in a baby home for a lengthy time will be eliminated, with the children to be placed in foster homes instead.

PRETTY COURSE

Fresh snap beans with tomato mayonnaise make a picture-pretty vegetable course. Cook 1 pound of whole fresh snap beans in 1 inch of boiling water with 1 teaspoon of salt for 10 to 12 minutes, or until crisp-tender. Drain and arrange in small bundles on individual plates.

Place a ribbon of tomato mayonnaise around center of each bundle, the mayonnaise made by mixing 2 tablespoons of finely diced fresh tomato, 1/4 teaspoon of salt, a dash of ground black pepper and 1 teaspoon of fresh lemon juice into 1/4 cup of mayonnaise. Serves 6.

Most Afghans speak Pashto or Pushtu, now the national language. Persian was the official court language until recently.

CARDINALS MEET—On the eve of the secret conclave starting Wednesday which will choose a successor to Pope John XXIII as spiritual leader of the world's 500 million Catholics are top, left to right, Alfonso Cardinal Castaldo of Naples, Richard Cardinal Cushing of Boston, and Carlo Cardinal Confalonieri of Italy. At bottom are Giovanni Cardinal Montini of Milan, Valerian Cardinal Gracias of Bombay, and Paul-Emile Cardinal Legier of Montreal. —UPI Telephoto

39 States Permit School Religion

WASHINGTON (UPI)—Religious exercises are permitted as part of the school program in 39 states, according to a survey presented to the Supreme Court.

The usual pattern in these cases is to open each school day with a homeroom devotional service which includes the reading of a passage from the Bible, and recitation of the Lord's Prayer.

This custom is much more prevalent in the South and East.

where it has existed since the early days of the Republic, than it is in the more recently settled sections, such as the Far West.

According to a survey given the court by Maryland, opening devotions are forbidden by law, state constitution or judicial decision in seven states. They are Alaska, California, Illinois, Nebraska, Washington, Wisconsin and Wyoming.

Missouri Law Silent

Missouri law is silent but the practice is not adhered to there. The Arizona constitution bars religious instructions and religious exercises are rarely held there or in Montana.

The survey produced no information from Nevada, nor did it show what New York has done since the court's decision last June.

The most comprehensive study of actual practices in U.S. public schools was published last year by Dr. Richard B. Dierenfeld, associate professor of education at Macalester College, St. Paul, Minn. He polled school superintendents in a nationwide sample of 4,000 communities.

School Officials Reply

Thirty-three per cent of the superintendents said that home-room devotional services were held in all schools of their sys-

tem. An additional 17 per cent said such services were held in some schools of their community.

Regional variations were striking. In the South, 88 per cent of the superintendents reported home-room devotional exercises in all or some of the schools under their jurisdiction. In the East, 80 per cent reported such exercises. But only 25 per cent of the superintendents in the Midwest and 9 per cent of those in the Far West did so.

In reply to a specific question, 42 per cent of the school superintendents said Bible reading was conducted in their schools. There was a high correlation between these replies and those concerning home-room exercises, suggesting that Bible reading normally is part of an opening "religious program" which usually includes prayer and possibly the singing of a hymn.

Hearing Set On Road Tax

SALEM (UPI)—A hearing has been set for July 23 in Salem to settle a dispute between Pacific Motor Trucking Co. and the public utility commissioner over payment of \$30,000 in road-use taxes.

The hearing was called to determine the intent of the legislature in 1951 when it amended the road-use tax law to exempt certain mail-carrying routes from taxation.

The PUC claims the trucking firm owes the taxes for non-mail freight it carried. The trucking firm says the law exempted it from all road-use taxes over the Portland-Ashland haul which was handled by Southern Pacific Railroad until 1955 when rail service was suspended. Pacific Motor Trucking, a subsidiary of Southern Pacific, then took over the mail haul.

Treasurer by Gloria Winters, Penny on "Sky King" is a gag check for \$1 from comedian Jack Benny for an appearance on his show.

Soil Tested Electrically For Moisture

LAKEVIEW — A number of ranchers in the northern section of Lake County are taking part in a newly developed soil moisture measuring program, according to John Kiesow, county extension agent.

The new program involves putting electrical resistance gypsum blocks in the soil which can be read by an electrical meter throughout the summer to determine when to irrigate. Under a sprinkler irrigation, Kiesow stated, a rancher can even determine the exact number of hours the sprinkler needs to be operating to bring the soil back to its full moisture holding capacity.

Cost for the gypsum blocks is \$1 each and for a meter, from \$60 to \$90. The meter will last for many years and the same one could be used by several ranchers. In some areas, districts have been set up and a farm wife or a high school student takes the reading and plots the chart.

Kiesow points out that interest was generated in the program as a result of the soils and irrigation workshops held in the county last year with Marvin Shearer, Oregon State University irrigation specialist, conducting.

A new bulletin, "Electrical Resistance Gypsum Block for Scheduling Irrigations," Extension Bulletin 810, can be obtained from the county extension office.

Shirl Conway, head nurse Liz Thorpe on "The Nurses" on the CBS Television Network, is a great-niece of the late actress Henrietta Crosman.

Dying Film Star Takes Own Life

LOS ANGELES (UPI)—Film star Pedro Armendariz, knowing he would die of cancer within a year, shot and killed himself Tuesday in his hospital room at the UCLA Medical Center.

He was found by his wife, Carmen, when she returned from lunch. The bullet of a .357 Colt Magnum from his personal gun collection had gone through his chest and spent itself against a door.

Mrs. Armendariz said her 51-year-old husband had appeared to be in good spirits although he had been in considerable pain the night before. She said she knew the gun was in his luggage but had thought nothing of it because he usually carried one with him when he traveled.

Armendariz, who appeared in such films as "St. Francis of Assisi," "The Littlest Outlaw" and "Tulsa," was suffering from cancer of the lymph gland. He had been told earlier he "probably only had about a year to live," a medical center spokesman said.

In the past few years, Armendariz divided his time between Europe and North America although he achieved his greatest fame in Mexico where he won the equivalent to the Academy Award for "Border River" in 1952.

He made 42 films in Mexico from 1935 to 1944 before coming to the United States for his first film, "The Fugitive," directed by John Ford and also starring Henry Ford.

Armendariz was a close friend of actor John Wayne and appeared with him in many of the 135 motion pictures he made during his career.

'Liz, Burton Reveal Plans

LONDON (UPI)—Elizabeth Taylor and Richard Burton have said they plan to get married as soon as they can, the London Daily Sketch reported today.

Neither Miss Taylor, 31, nor the 37-year-old Welsh actor she met while filming "Cleopatra" were immediately available to comment on the story.

Fergus Cashin, the Sketch's entertainment writer, said Burton told him:

"I want to marry Elizabeth and I will marry her."
"There have been all kinds of rumors, but this is what is going to happen."
"No ifs. No buts. She wants to marry me. I want to marry her."
"I'm so happy Richard has told me," Miss Taylor was quoted as saying.

"The actress' husband, crooner Eddie Fisher, said when informed of the story in New York: "I wish them all the happiness. My plans are, and always have been, to accommodate the lady."

Fugitive Taken

WALLA WALLA (UPI)—Rev. Don Stamps, who escaped from the state penitentiary here in May, was returned from Kansas City late Tuesday. He was captured there June 5.

Stamps, convicted of robbery in Seattle about three years ago, was due for parole in August.

3 Changes In County Schools Made

Three administrative changes in the county school system have been announced by Cliff Robinson, county school superintendent. Al Samples, principal at Chiloquin High, will go to Malin to replace Jim Conroy, former principal who has taken the post as secondary school supervisor in the county school district.

William Pohl, Bly High School principal, will move to Chiloquin to replace Samples and Melvin Brooks, who has been teaching science at Merrill High, will replace Pohl as principal at Bly.

Samples has lived in Klamath County since 1930 and taught in the county school system since 1951. He is a graduate of Herley High and took his B.S. and M.S. degrees at the University of Oregon.

Before starting to teach at Altamont Junior High Samples had a 3 1/2 year stint in the Air Force. He taught at Altamont four years and at Bly four years, and has been principal at Chiloquin for four years.

Pohl also started teaching in the county in 1951. He took his B.S. and M.S. degrees at Oregon State University, and taught at Bly and Merrill high schools before taking the principalship at Bly in 1957.

Brooks, a native of Idaho, took his B.S. and M.S. degrees at the University of Idaho. He taught in Idaho high schools and has been teaching at Bly for 28 months.

Woman Elect New President

PORTLAND (UPI)—A Corvallis woman, Mrs. J. T. Longfellow, was named president of the Oregon PEO women Tuesday afternoon. She had served as vice president of the group during the past year.

The group, a women's social and philanthropic organization, is holding its annual state convention this week on the Lewis and Clark College campus.

Japan In Fish Conservation Pact Of Pacific With U.S. And Canada

WASHINGTON (UPI)—Japan Tuesday stuck by its insistence on rewriting a 10-year-old North Pacific Fisheries conservation pact, despite Canadian and U.S. opposition to Japan's proposal for a substitute.

The chief issue was Japan's opposition to continuing the "abstinence principle" under which Japan does not fish for certain species in areas of the eastern North Pacific Ocean so long as U.S. and Canadian fishermen are taking the maximum allowable catch.

It was understood the conference would have to wind up—or at least recess—at the end of this week because several of the negotiators have commitments elsewhere.

Dr. A. W. H. Needler, Canadian deputy fisheries minister and chairman of the Canadian dele-

gation, proposed at Tuesday's session that the problem of intermingling of species be solved by Japanese abstention from ground-fishing operations where halibut constitute a substantial portion of the catch.

Needler also said that all halibut netted in operations seeking other species should be tossed back into the sea, according to a joint communique.

The Canadian delegation chairman said his country believed the problem of intermingling species could be solved by interpretation of the articles of the existing pact.

The Japanese delegation said the abstinence formula raised a number of difficulties in solving the problem of intermingling. Japan emphasized the necessity for writing a new pact, the communique said.

Tomorrow Only, Scalp Specialists In Klamath Falls, Will Show How to Save Hair and Prevent Baldness

On Thursday, June 20, at the Cobos City Center Lodge in Klamath Falls, Staff Director, Mr. K. C. Conner, will give free hair and scalp consultations between 1:00 p.m. and 8:00 p.m. to hair-worried men and women. Phone TU 2-4494.

Erickson Hair and Scalp Specialists, the oldest and largest organization of its kind makes regular visits to Klamath Falls throughout the year to assure you of success in a minimum period of time. Erickson is now in its seventh year. Last year alone, over one-quarter million Erickson home scalp treatments were used.

Before After
Mrs. Virginia Barnes

Written Guarantee

Erickson Hair and Scalp Specialists accept only those whose hair will respond. Individuals accepted are given a written guarantee that they will be satisfied with results or money will be refunded on a pro-rated basis. So, why put off your hair problem any longer?

Hopeless Cases Refused

Erickson Specialists will accept only clients whose hair will respond to treatment. They cannot help individuals who are slick-bald or the majority of cases of baldness and excessive hair loss, called male pattern baldness, where no treatment including the Erickson method is of any value. Therefore, Erickson will continue their policy of refusing all hopeless cases. Mr. Freyer and Mrs. Barnes did not have male pattern baldness.

Free Hair Clinic Tomorrow Only

For your free hair and scalp consultation, go to the Cobos City Center Lodge between 1:00 p.m. and 8:00 p.m., on Thursday, June 20, and ask the room clerk for Mr. Conner's room number. You may phone for an appointment or just come in at your convenience. Consultations are given in private. You will not be embarrassed or obligated in any way.

Free Consultation
There is absolutely no charge or obligation for your free hair and scalp consultation. You can easily follow this new modern method in the privacy of your home. Actually, there are thousands with hair and scalp problems who can be helped by the new Erickson Hair and Scalp Specialists home treatment methods.
