**Market Basket**  
Food Marketing Specialist  
Oregon State University  
VEGETABLES  
Homegrown greens include leaf lettuce, romaine, butter lettuce, mustard greens, and spinach. Greens from nearby are more succulent and have a better chance of keeping all their vitamins. Home grown radishes and green onions are at their best. Local cauliflower is excellent and coming down in price. Add some of the flowerettes to tossed green salad for extra flavor and crispness. First peas are from The Dalles... the faster peas move from the field to the kettle the better they are so eat them right away. Florida tomatoes are practically through. Tomatoes coming from California are now somewhat higher in price with quality varying. Asparagus season is nearing the end... so buy it now. Dark, hardshelled summer avocados are now appearing... prices are a bit higher.

**FRUITS**  
Oregon's famous strawberry crop is increasing in quantity each day. Although strawberries have been on the market for several months, many Oregonians wait to eat their fill of sweet local berries. The peak for Oregon berries is expected this weekend. Time to stock your freezer or have a "jam session." Many of the fresh berries go to the processors as Oregon is the largest processor of frozen berries. Cantaloupes and watermelons from California and Arizona are good buys and generally fine quality. Cantaloupes are advertised as low as six for a dollar. Produce people tell us we may see some good banana buy—customers are buying strawberries instead of bananas and markets may need to dispose of their ripe bananas. High priced newer items include apricots, seedless Perlette grapes from the Coachella Valley, sweet dark Bing cherries from California, nectarines, and early peaches.

**Coconut Custard Pie**  
1 unbaked 9-inch pie shell with upstanding crimped edge  
4 eggs, slightly beaten  
1/2 cup sugar  
1/2 teaspoon salt  
1 teaspoon vanilla  
3/4 cup flaked coconut  
2 1/2 cups milk, scalded  
Roll out pie dough 1/8 inch thick, fit into a 9-inch pie plate, trim edges, and crimp in an upstanding edge. Do not perforate. Mix eggs, sugar, salt, vanilla, and coconut. Slowly stir in hot milk, mixing well. Place pie shell on the oven rack and quickly pour the custard into the shell. Sprinkle with a little extra coconut and bake in a 475 degree oven for 5 minutes. Then reduce the heat to 425 degrees and continue to bake for 10 to 12 minutes longer, or until a knife inserted halfway between the edge of the crust and the center of the filling comes out clean. Remove at once from the oven, cool on a wire rack, then chill before serving. Makes 6 servings.  
The new method of baking this pie with a uniformly high temperature for a short period of time does away with that old bugaboo of the moist undercrust. This pie demands almost undivided attention during the baking, since an extra minute or two in the oven will turn a satin-smooth custard into a weeping, unsatisfactory product.

**DELUXE GINGERBREAD 118c 1**  
3 cups sifted cake flour  
1 teaspoon soda  
1 teaspoon salt  
2 teaspoons ginger  
2 teaspoons cinnamon  
1/2 cup butter (1 stick)  
1 cup sugar  
2 eggs  
1 cup dark molasses  
1 cup buttermilk  
Sift flour once, measure, add soda, salt and spices and sift again. Cream butter with sugar until light and fluffy. Add eggs, one at a time, beating well after each addition. Add molasses and blend. Add dry ingredients, alternately with buttermilk, beating until smooth after each addition, flouring 8 by 12 inch pan and bake in a 350 degree oven 35 to 40 minutes, or until a cake tester inserted in the middle comes out clean. Serve warm with hard sauce, lemon sauce or slightly sweetened whipped cream. Makes 12 servings.

**CHEESE BALLS**  
Blend together 3 ounces of package cream cheese, 1 tablespoon of pineapple juice and 3 tablespoons of toasted wheat germ. Shape into six balls. Roll in additional wheat germ. Serve atop a fruit salad.

A worn-out hot-water bottle makes a good kneading pad when scrubbing or weeding. Fill the bottle with foam rubber.
