

Take these dainty specs (left) to the city. They click with suit, hat, and crisp white gloves. Try the bikini type (below) under a fun hat for a fresh beach look. Slip on a new bubbly wraparound (bottom), which comes in delicious colors—violet, yellow, blue, and green.

Through a Glass Smartly

By ROSALYN ABREVAYA

SUNGLASSES greet the world gaily this summer as they sprout rainbow-colored lenses and exciting new geometric shapes.

Bidding for fashion prominence is the chic bubble-shaped wraparound, which sports some of the prettiest pastels in the color spectrum. It's ideal for boating golfing, driving, and wherever wind and dust might spoil the fun.

Then there's the distinctly tailored look, exemplified by the diamond-shaped bikini type (designed very much like the top of one), which will fit into city ways, then go to the beach in droves.

And remember old Ben Franklin? His reading spectacles have inspired the daintiest dark glasses ever to perch on a female nose. They are a pair of rectangular specs, perfect for tucking into the smallest handbag.

So whether you want to view the world through rose-colored glasses or those of a darker hue, one of these styles will glamorize your day in the sun.

All are under five dollars.

The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute.
