**Furniture Talk "HOME FURNISHING IS OUR BUSINESS"**  
By BEN RYAN

Your way of living is a personal thing. Your decorating can enrich your life if it helps to make your family's day-to-day living more comfortable, pleasant and beautiful. Plan first to suit your family's tastes: plan secondarily - or not at all - to please your friends or neighbors - who are pretty good at times in advising you. Plan your home to reflect your own personality and way of life. Start your decorating plan on paper, with a list of the things your home must have for your family's comfort and convenience. Start with something you like—a patterned fabric or wallpaper, or your favorite color—or a picture, a family treasure, a remembered view, your garden in the spring time. Use the colors as the basis or your own color scheme. You'll probably enjoy the results longer if you choose neutral or muted colors for the large back areas such as walls, ceilings and carpeting. Bring your favorite colors into your rooms in your upholstered pieces, pillows, lamps, etc. But, first and last, key your home to your own personality and that of your family for comfortable and pleasant living. If you have any problems or questions, stop in and ask. We are at your service without obligation.
