

# Enrollments Show Gain

EUGENE (UPI) — Enrollments at Oregon's nine higher education campuses today totaled 32,390, up 1,713 over the 31,217 enrolled at this time last year.

Officials said an additional 400 or 500 students are expected by the end of this week.

All but Oregon College of Education and Eastern Oregon College reported enrollment increases. OCE had 1,319 compared to last year's 1,393, and EOC had 1,111 compared to 1,125.

Oregon State University topped the list with 10,291, compared to 9,826. University of Oregon had 9,560 compared to 9,348.

Portland State had 6,564 compared to 5,744. Southern Oregon College 2,044 compared to 1,792. Medical School 651 compared to 601. Dental School 384 compared to 336, and Oregon Technical Institute 906, up four from last year's 902.

Officials said registrations were up 5.5 per cent over last year. They said a 6.2 per cent increase had been anticipated.

## Major Suit Force Noted

By OSWALD JACOBY  
Newspaper Enterprise Assn.

Although most systems still play the jump to three of partner's suit by an unpassed hand as a game force, the examples are always in the major suits. Somehow or other no one really likes to play the minor suit jump as anything, but a strong invitation to further bidding. For years the western players have all played the bid this way and it is only with the majors that they are just coming around to playing limit bids.

It is necessary to have some way to handle the forcing raise of a major and after years of experimentation I have come around to using two no-trump as this forcing raise by an unpassed hand.

This means that the normal two no-trump response can't be used, but I have never found any great use for it anyway and it does come in mighty handy as the forcing raise because it leaves lots of room for exploration below game.

In the Jacoby system the jump to four by an unpassed hand remains just as in other systems. A hand that should produce game and that has little defense against the opponents and little chance for a slam unless opener really has lots of control cards.

South has 17 high card points and a pretty good six card suit. Most any strong bid by North should suggest a slam, but not the jump to four spades.

South misses three aces and there is little chance that North will hold two of them, so South passes and settles for the game.

**♦CARD Sense♦**

Q—The bidding has been:  
North East South West  
1♣ Double 1♥ 1♠  
Pass 2♣ ?  
You, South, hold:  
♠A WK884 ♦432 ♣KJ76  
What do you do?  
A—Bid either three or four clubs. Four clubs is a very slight overbid, but I would prefer it to bidding merely three clubs.

**TODAY'S QUESTION**  
You bid four clubs and your partner bids four diamonds. What do you do now?

# Communication Lack Can Impair Request For Foreign Aid

By DICK WEST  
WASHINGTON (UPI) — When administration officials appear before congressional committees to seek funds for the foreign aid program, they almost always encounter a certain amount of hostility.

Why do they have so much trouble getting their points across the Congress? I believe the lack of understanding is caused by a language barrier.

If the witnesses spoke Hausa and the committee members spoke Urdu, they could call in some interpreters and get along very well. But as things now stand, they both speak English.

Speaking the same language can seriously impair communication, as we shall see as we examine a volume of testimony published Monday by the House subcommittee on foreign aid appropriations.

As we tune in on the hearing, subcommittee Chairman Otto E. Passman, D-La., and Rep. William E. Minshall, R-Ohio, are interrogating Brig. Gen. Stephen O. Fuqua Jr. about the purchase of some airplanes for the military assistance program.

Passman: How many Cessna 185 aircraft did you request last year in the 1963 budget for Iran?  
Fuqua: None.

Passman: We want to keep the horse head of the cart this time. Let us see what you requested.  
Fuqua: There were no 185's; there were 15 180's requested last year.

Minshall: How much did you pay per airplane?  
Fuqua: Cessna 185's cost \$18,000.

Minshall: How much did you pay for the 180's?  
Fuqua: We did not buy any 180's.

Minshall: You just said 180.  
Fuqua: As I pointed out just a moment ago, when the program was adjusted, there were no Cessna 180's left in the fiscal year 1963 program as of March 19. We did not put any in. We did purchase Cessna 185's.

Passman: How many Cessna 185 aircraft did you request last year in the 1963 budget?  
Fuqua: None. But we did ask for 15 Cessna 180's.

Passman: I am willing for you to substitute one for the other.  
Fuqua: We asked for no 185's. We requested funds for 15 180's.

Passman: How many did you purchase?  
Fuqua: We purchased no 180's fiscal year 1963, but we did purchase Cessna 185's.

There was a lot more of this sort of thing, but let us mercifully draw the curtain at this point. Swahili, anyone?

The New England Council of Optometrists Inc., Tremont St., Boston, is the publisher.

## Experimental Dog Gives Birth To 14 Offspring

PORTLAND, Ore. (UPI) — A mongrel dog named "Chameli" made medical history at the University of Oregon Medical School Farm when she gave birth to 14 puppies.

The number in the litter is not as significant as the fact they were born at all.

Chameli has only one kidney which once was removed from her body and stored for nearly eight hours at low temperatures before being returned. The birth proved the organ was healthy and able to withstand the strain and pressure of the pregnancy and birth of the large litter.

Following the first operation and storage, the dog's second kidney was permanently removed. The operations occurred in June, 1962.

The father of the pups, Butch, also has only one kidney, a once transplanted and super-cooled one.

The operations were part of a research project aimed at finding a successful method of storing the body organs in some form of "bank" until needed. The work is being directed by Dr. Stanley W. Jacob and Dr. Pebhake Deshpande.

Their project parallels other research which would enable the human body to accept donor organs. The body now rejects organs of other persons.

## Youth Summer Camp Suggested

CORVALLIS (UPI) — A summer camp for boys who are having trouble in high school was suggested Monday by Harold Kleiner, principal of Grant High School in Portland.

Kleiner made the suggestion at the fall conference of the Association of Secondary School Principals.

He said the living-in camp would be for youths who are having trouble with their studies. The boys would plant trees or do similar work, he said.

They're here now—the all-new Falcons for 1964!  
We've kept the economy that made Falcon famous. (Falcon's Six still holds the all-time Mobil Economy Run record for Sixes or Eights.)  
But we've changed everything else.  
New style, new comfort, new convenience and the plushest ride a compact ever had.  
Come test-drive the '64 Falcon soon!

**FACTS ON THE 1964 FALCON:** Redesigned interior for greater comfort and convenience  
 ■ Ford's famous Twice-a-Year Maintenance ■ More safeguards against rust and corrosion than ever before  
 ■ Optional power steering, power brakes ■ Bucket seat models available ■ Optional air conditioning  
 ■ Five engine choices from thrifty 85-hp Six to 164-hp V-8 ■ Four transmissions including America's only fully synchronized 3-speed manual (standard with V-8's) ■ Fourteen models plus three extra-duty wagons.

# WOMEN AT WORK

**mapping your future fuel supply**

A vital part in the transmission of natural gas from its source to your home is map-making. A specialized team of El Paso Natural Gas Company employees is responsible for the preparation of thousands of maps . . . which show locations of wells, routes of pipelines, types of terrain pipelines cross . . . maps which show drilling areas, future pipelines and regions yet to explore for new gas reserves. Before a ditching machine can bite into the earth, maps must be prepared and printed to direct its crew. El Paso's team makes wall-size maps, card-size maps and every in-between-size—part of the continual effort to assure an ever-increasing supply of energy for the West, and new convenience for your home. Call your retail gas distributor\* to learn the many ways natural gas can serve you.

**EL PASO NATURAL GAS COMPANY**

Through its pipelines, El Paso Natural supplies wholesale gas service to retail natural gas distributors in WASHINGTON • OREGON • ID • ARIZONA • CALIFORNIA • COLORADO • NEVADA • NEW MEXICO • TEXAS • UTAH • WYOMING
