

100 PER CENT — Mrs. Julia Brown (right), chairman of the public employes division of the United Fund campaign, congratulates fire inspector Bill Ackerman and Carol Collins, secretary to Robert Kyle, city manager, both campaign chairmen in their respective offices. Both city hall and the fire department have turned in 100 per cent donation figures in the campaign this year and are among the first to do so.

Week Sees Decline In Market

NEW YORK (UPI)—Hi-jinks in a handful of stocks tended to camouflage a widespread if not severe decline in the market last week.

However, neither the rumors which accounted for much of the play in issues such as Chrysler, American Crystal Sugar, Thiokol and Sperry Rand, nor the very real earnings records for RCA, GE and IBM, the hurricane in Cuba, a grain-cash swap with Russia or the persistent belief among professionals that the "market still is going to go up" turned the trick.

The Dow-Jones industrial average finished the week at 741.76, off 3.30 of 1,496 issues traded, 725 declined while only 568 advanced.

Sizable gains in Chrysler early in the week reflected a rumor that the company would split its stock at 100. This was squelched when a source close to the company said a split now would be too close on the heels of a split last spring. However, Chrysler still managed to rise 3 1/2%.

Thiokol moved up on a rumor that it would merge with Chrysler rising 4 1/2% despite a denial of this by Chrysler. Sperry Rand dipped 1 1/2% despite a rumor that the company will have higher earnings in the final half of its fiscal year and also that its business machine and computer business is finally heading into the black.

Sugar stocks moved higher following news that hurricane Flora wiped out about half of Cuba's sugar crop.

Although Cuban sugar is no longer purchased in the U.S., it was noted that its loss is felt on the world market and the effect transmitted to the domestic market.

American Crystal Sugar advanced 9% on this news and also—again a rumor—that it would split its stock 3-for-1. Elsewhere in this section, Great Western advanced 2%, South Puerto Rico 1 1/2%, National 2%, North American 2%, Central Aguirre 1% and Holly 4%.

Investors ignored a sizable batch of concrete news including: Last week's seventh consecutive gain in steel production; booming auto sales; a two-year high on rail freight volume and higher department store sales.

CARD OF THANKS

I wish to extend my heartfelt thanks and appreciation for the acts of kindness, messages of sympathy, and beautiful floral offerings, and tokens of sympathy received from my kind friends and neighbors during my recent bereavement in the loss of my beloved husband, Dr. E. McKeever, especially those of the Elder Malesy, and the pallbearers, Mrs. Sadie McKeever.

FUNERAL HOMES

WARD'S Klamath Funeral Home, 925 High Street, TU 2-4644

MEETING NOTICES

Klamath Lodge No. 77 AF & AM STATED COMMUNICATION & M.M. Degree Monday, Oct. 14, 7:30 p.m.

LOST & FOUND

FOUND man's wrist watch at Klamath Auditorium. May be identified at the Parks and Recreation office, City Hall, 4-4384.

HELP WANTED, FEMALE

COMBINATION waitress and fry-cook, night shift 10 p.m. to 6 a.m. See Audrey Foster, Foster's Cafe, 707 Main on 97.

HELP WANTED, MALE

PART time morning delivery work, TU 4-4981.

SITUATIONS WANTED

DOMESTIC help. Reliable English mother. I help with housework, cooking, etc. \$120 monthly. My own minimum. Write Robin Jones, 6 Gratton St., London, England.

ROOMS FOR RENT

GENTLEMAN, clean room, \$20 a month, 1300 Crescent, TU 4-8442.

APARTMENTS FOR RENT

THREE room furnished apartment, inquire 2101 White, TU 4-3872.

REAL ESTATE WANTED

CITY school principal wishes to rent 3 bedroom home. Must be clean and in good condition. TU 2-4348.

REAL ESTATE EXCHANGE

I am a "TRADER" ARE YOU? DEANE SACHER, 431 MAIN - TU 4-9234 - TU 2-1048

REAL ESTATE FOR SALE

REDECORATED 2 bedroom home near new OTI & hospital, large utility, new large closets, built-in garage, new furnace, wiring, TU 2-3019.

WANT ADS

To Place Your WANT ADS, Phone TU 4-8111

HEALTH

BLESSED RELIEF in minutes to back, neck, hip, shoulder, sciatica, etc. BELLS' GUARANTEED EXCLUSIVELY AT CORNER'S FOR DRUGS, concentration instructions.

Continuing Terror Grips Survivors Of Dam Tragedy In Italian Valley

Editor's Note: United Press International correspondent Harry Stathos has toured the disaster area of the Piave River Valley in Italy, where 3,000 to 4,000 persons died and eight villages were wiped out. In the following dispatch, he describes the continuing terror which grips the people still alive.

By HARRY STATHOS, United Press International, CASSO, Italy (UPI) — The

ground rumbled and the villagers gathered around a U.S. Army helicopter started in terror.

"Oh God, here it comes again," said one woman.

Then the rumble died away and the people of this stricken village once again turned their attention to the food and medical supplies brought to them by the helicopter.

Casso is 650 feet up on the mountain above the Vajont dam. On Wednesday night a massive landslide went into the reservoir

behind the 875-foot high dam and spilled millions of tons of water over the edge and down onto the villages below.

Between 3,000 and 4,000 persons were killed. Although those villages below caught the major brunt of the disaster, the backlash of water from the landslide climbed right up the mountain-side and hit Casso and other villages in the lake area.

During the days since the Wednesday night disaster, there have been constant small landslides. The people here are afraid there will be another one. They want to leave—but there is no way out.

Whenever the ground rumbles there is stark fear in their eyes. This correspondent went to Casso and two other villages near the one-filled reservoir with a U.S. Army cargo helicopter from the southern European task force based in Verona. Within hours after the catastrophe struck, these helicopter crews were on the scene and since have been operating almost around the clock bringing in food and medicines.

Coming down from above Casso we could see the shambles of many of the houses on the lower levels. Three days after the disaster, the streets were still filled with water.

From above, it was clear what had happened. There was a huge cave where part of Mount Tovo had caved in, dumping millions of tons of dirt and rock into the reservoir of the dam.

As the helicopter touched down, hundreds of villagers gathered around. They started to unload the food and supplies when the brief rumbling, that could be felt through the soles of your shoes, stopped.

They stopped while it lasted, not bolting but obviously terror-stricken. Then, when it stopped, they went back to work.

After the helicopter was unloaded, the pleas for evacuation sounded. Since I was the only person aboard the helicopter who spoke Italian, I had to forward the request to the pilot Capt. Max H. Mitchell of Colonial Beach, Va.

He finally agreed to take out 13 persons, and one body that had been found.

As the helicopter lifted from the ground, he promised, "We'll come back this afternoon for more."

GOVERNOR PROCLAIMS — The week of October 13-19 has been set aside as Patriotic Education Week. American history is a subject which all high school students study. It is of fundamental importance, Gov. Mark O. Hatfield says, because through it students learn of the greatest principles of free government established by past and present leaders. During Patriotic Education Week, sponsored in Oregon by the Oregon State Society Children of the American Revolution, each person is asked to dedicate their lives to the ideas of the government. Left to right are Jodine VanAist, Portland, Oregon state chairman of Patriotic Education, CAR; Governor Hatfield and Greg Warner, Oregon state president, CAR.

POLLY'S POINTERS

Bow To Mom

POLLY CRAMER
Newsprint Enterprise Assn.

DEAR POLLY—As an older teen-ager, my main interest is in a closet full of clothes. My mother is a very good seamstress and the following discovery is all her own. When she makes round cord nashes for dresses she takes an old nylon stocking and splits the leg down the front and back right to the toe. The toe joins the two lengths. Then she puts a safety pin in one end of this long nylon rope and pulls it through the material that has been stitched together on the wrong side and turned. As the one who wears these inventive creations, I would say they are lighter, cooler and quick-drying. I am writing but Mom should get the credit—JOANNE

GIRLS—Momm gets the credit and a Polly Dollar will soon be on its way to her—POLLY

DEAR POLLY—Wire coat hangers can be bent to make good shapes for drying socks, especially wool socks. Leave the hook part on to hang over the clothesline and bend the body part into the shape of a leg and foot for the socks. The men in my family wear heavy home knit wool socks for hunting and winter sports and these hangers keep them from shrinking and matting.

And now for a good way to make some very smart little tea aprons from your husband's old shirts. Cut through the yoke, leaving enough of the double fabric for a belt. Cut down through the sleeves for they are your ties. Transfer hubby's pocket and with a few minutes of hem-

ming, there is an apron—MRS. C. E. O.

DEAR POLLY—I save all scraps of deodorant bath soap, put it in a quart jar of warm water to dissolve and have a nice shampoo ready when my dog needs a bath. This gives quick

results and saves money as I use something I would otherwise waste—AN APPRECIATIVE READER

DEAR POLLY—My tip is for home decorators who use louvered shutters that have to be painted. Painting or varnishing them can be a real task. It is made simpler by wearing rubber gloves and then using a sponge about the size of a bar of soap to cover all the tiny, hard-to-get at surfaces. Apply as if you were polishing shoes. This prevents dripping and results in a smooth finish—MRS. G. K.

DEAR POLLY—If you have a square-necked dress that does not lie as flat as you would like, try tacking a narrow piece of elastic inside each front corner. Bring pieces under the arms, and tie or pin together in the back—L. E.
