**Grand Jury
Listens
To Valachi**

NEW YORK (UPI)—Mafia songbird Joseph Valachi went before a Queens County grand jury today to recount his knowledge of mobster slayings. Heavily armed squads of police and U.S. marshals guarded against any attempt to assassinate him.

As the squat underworld figure was brought into the courthouse building, he posed for photographers, smiled and waved his hands. But he told newsmen: "I got nothing to say."

Hundreds of police and other law enforcement agents scanned the area for would-be executioners who might try to kill the aging informer.

District attorneys here have been itching to get Valachi ever since he started "talking" before a Senate investigations subcommittee probing crime in the United States.

Valachi will be questioned about unsolved gangland slayings, particularly the murder on Sept. 25, 1959 of Anthony Carfano, known in the underground as "Little Augie Pisano."

According to Valachi's story, Vito Genovese gave the "hit" or kill order for Little Augie after he objected to the attempted assassination of the then syndicate kingpin, Frank Costello.

It was after the aborted attempt on Costello's life that Genovese, now serving a prison term on a narcotics conviction, rose to the top of the mob.

Valachi's testimony before the Queens grand jury could possibly result in an indictment against Genovese.

**Logger Killed
At Willamina**

WILLAMINA (UPI)—Herbert Gustav Rydell, 38, Willamina, was killed Tuesday in a logging accident near here.

Rydell, who was operating a tractor, apparently fell off the machine and became entangled in its tracks, officials said.

His body was discovered by his two sons who sought to determine why he did not return home.

BUSINESS IS GOOD—One unidentified delegate showed up at a San Mateo motel, but he went away disappointed. New manager Frank Dennison posted the sign as a joke, and what started out as a slow weekend turned out as a busy Saturday night. "The sign isn't wholly misleading," Dennison said. "If nudists want to stop and converse, they can."

**Tax Bill Hearing Likely
To Continue Six Weeks**

WASHINGTON (UPI)—Treasury Secretary Douglas Dillon returned to the Senate Finance Committee hearings today for further questioning on President Kennedy's embattled \$11 billion tax cut program.

The tax cut measure, already passed by the House, faced more hostile fire from committee members at hearings that may stretch into six weeks.

Sen. Albert Gore, D-Tenn., an avowed foe of the bill he described as a "rich man's bill," charged that the measure amounts to a "major attack on the United States progressive tax system."

He said that under the bill a single person with \$4,000 income would receive only a 5 per cent increase in take-home pay, while an individual with \$400,000 taxable income would enjoy a 120 per cent increase in after-tax income.

Backers of the bill, eager to speed up the hearings, have been quietly contacting those who support the measure, asking them not to testify. Despite

this, Chairman Harry F. Byrd, D-Va., a foe of the bill, said 140 witnesses have asked to appear.

Other congressional news: Civil Rights: Atty. Gen. Robert F. Kennedy is believed to feel that his call for revision of a House-drafted civil rights bill will get the measure moving through Congress with chance of passage this year.

Kennedy told the House Judiciary Committee Tuesday he wants "a bill, not an issue." He faced further questioning today on his proposal to tone down the committee's bill, which is far stronger than that the President seeks.

Students: The House Committee on Un-American Activities resumes its investigation of unauthorized U.S. students trips to Cuba with hopes of averting a repeat performance of last month's violence-marred hearings. Committee sources say the purpose of the hearing is to explore the identity of "Jay Jacobs" who allegedly bought the airline tickets for last summer's Castro-sponsored jaunt.

Aid: The Senate Foreign Relations Committee is leaving it up to President Kennedy to decide whether to use foreign aid as a device to further the anti-Communist campaign in South Viet Nam. Because the President already has discretionary authority to extend or withhold aid to any nation not specifically barred by Congress, the committee's move, voted Tuesday, seemed to be an endorsement of Kennedy's avowed policy of taking any action necessary to win the Viet Nam war.

**Laity Issue
Debated
By Council**

VATICAN CITY (UPI)—Conservative cardinals in the Ecumenical Council today mounted a sharp attack against a proposed declaration that Roman Catholic laymen have an important Christian mission of their own.

The document on which the council fathers opened debate today is Chapter Three of a lengthy "dogmatic constitution" on the nature of the church.

If approved, it will be the first council declaration in history to deal specifically with the role of the laity.

Ernesto Cardinal Ruffini of Palermo, Sicily, the first speaker, objected strenuously to the suggestion that laymen share in the apostolic mission of the church.

He said that there was "great danger to the authority of the hierarchy" in using language which might give laymen the impression that they have the same kind of mission as ordained clergymen. He said it is important not to establish any idea of equality between clergy and laity, or to say anything which would tend to weaken the authority of the hierarchy and obedience of the laity.

An Italian member of the Roman Curia, Antonio Cardinal Bacci, said he was disturbed by references in the document to "the universal priesthood of the faithful." He said there should be amendments to tone down this language and make it very clear that the laity does not have the same powers as ordained priests.

**Oregon Finance Director
Takes Leave Of Absence**

SALEM (UPI)—Finance and Administration Director Freeman Holmer begins a six-month leave of absence today, the governor's office announced.

The announcement was made late Tuesday, before results of the tax referral election became known.

During his leave, Deputy Director Leander Quiring will assume Holmer's duties.

The governor's office said the leave will permit Holmer to "undertake a private business consulting assignment, first ordered two months ago."

Holmer served in August as a consultant on budgets administration to a task force appointed by Michigan Gov. George Romney.

Quiring has headed the services division of the department since February of 1959, and served as deputy director since June, 1962.

Military Strongman Leads In Korea

SEOUL, Korea (UPI)—Military junta chairman Park Chung Hee, the peppery little ex-general who can be expected to irritate the United States on small matters but agree with it on basic policies, appeared certain of election today as South Korean president.

Park, 46, led former President Posun Yun in unofficial

returns by 4,471,300 votes to 4,379,064. This represented all but about a million of the 10,857,062 votes cast.

The close fight put up by the 66-year-old Yun meant that Park's apparent victory gives him no mandate to do what he pleases for the next four years.

And hard political and military realities prevent Park from

showing too much independence from the United States, although there have been recent reports that he would seek to follow a more neutralist line in foreign policy.

There are 50,000 U.S. soldiers here to help guard South Korea against aggression from the Communist north, and the United States spends nearly \$500 million annually in military and economic aid to Korea.

**Jet Zooms From Tokyo
To London In 8½ Hours**

WASHINGTON (UPI)—An American supersonic B58 bomber landed in Britain today after flying non-stop from Tokyo in the record time of 8 hours and 35 minutes, President Kennedy announced.

The previous record for such a flight was more than twice the new mark—17 hours and 42 minutes, established in 1955 by a British jet.

Today's flight, which officially finished over London at 6:54 a.m. PDT, covered 8,028 miles at an average speed of 938 statute miles per hour.

The purpose of the flight, according to Gen. Godfrey McHugh, Air Force aide to the President, was to demonstrate the capability of a B58 Strategic Air Command (SAC) bomber with its regular SAC crew of three men.

The plane was refueled five times in the air as it raced over its west-coast course.

In a statement on the flight, Kennedy said:

"I congratulate the Air Force crew which flew this operation and the men who supported it on the ground. I know that the success of this flight is due to the high competence and dedication of all involved."

The 3rd Air Force in Britain said the flight was timed between points over Tokyo and London, although the craft took off from Okinawa and touched down at Newbury, 36 miles northwest of London.

**Jet Lost
Off Coast**

EVERETT, Wash. (UPI)—An F102 jet fighter from nearby Paine Air Force base disappeared at 10:31 p.m. Tuesday and was presumed down at sea southwest of Neah Bay on the Washington coast.

The plane was piloted by Capt. John J. Howard, 31, Portland, Ore., a member of the 64th fighter interceptor squadron at Paine Field.

Search activities, which continued through the night, were expanded at dawn today. Two Coast Guard HU-16 seaplanes, four Coast Guard helicopters, three Air Force helicopters, two Air Force C-47s and a Coast Guard cutter Modoc were participating in the search.

**Bargaining
Continues**

PITTSBURGH (UPI)—Bargainers for three unions met with Westinghouse Electric Corp. negotiators today at 10 a.m. EDT in an attempt to reach contract agreements.

Contract talks began on a day-to-day basis Tuesday for two of the unions, the 35,000-member International Union of Electrical Workers (IUE) and the 6,000-member United Electrical Workers (UE). Both were free to strike at midnight Monday.

Gov. Mark Hatfield said Quiring was "admirably qualified by every test to head the department during Holmer's absence."
