WALL STREET

NEW YORK (UPI)—Strength in chemicals paced an irregularly higher stock market to point in the chemicals, General Motors moved up nearly 2 to a new high for the year. Xerox was up around 14. Chrysler weakened. Drugs moved lower after the Senate monopoly subcommittee confirmed that it is studying secret documents of a worldwide cartel which allegedly rigs drug prices. Baxter Labs, Merck, Pfizer, Rexall and Johnson & Johnson paced the downside.

Wall Street chatter NEW YORK (UPI)—Coby & Co. continues to be of the opinion that the Dow-Jones industrial average can advance another fifteen points to about 775.00 before important correction intervenes. "Considering the present high degree of speculation in some issues, it added, "we think short swing accounts must be very warm, but long term investment managers can just sit it out with holdings and add to these during periods of inevitable general market weakness. Over the long term the stock market is going a lot higher."

Investment adviser James Dines says that the correct market strategy here "is to enlarge the portion of portfolios in selected uptrending issues, protected by properly placed stops." "The fundamental position of the market continues strong," says E. F. Hutton & Co. "Earnings for the final quarter promise to be good. These will add substance to the price rise which historically takes place in November and December in the stock market. We look for higher prices for the balance of this year and into 1964."

Spear & Staff points out that for the last month, the Dow-Jones industrial average has been rather volatile within a fairly narrow price range. "Over the near term this pattern is likely to continue and to be accentuated by trading for tax purposes and changes in the short position. We prefer to remain conservative and advise limited purchases," the advisory service says.

Livestock

KLAMATH FALLS Livestock Auction Market Oct. 28 Receipts: All Cattle, 1300; Hogs 6; Sheep 30. Last week: Cattle, 386; Hogs 37; Sheep 5.
