

Algeria, Morocco Eye Demilitarized Zone

BAMAKO, Mali (UPI) — Algerian sources claimed today that President Ahmed Ben Bella and Moroccan King Hassan II had tentatively agreed to demilitarize the disputed area on their frontier pending further talks.

The report, which was not immediately confirmed by other delegations here, came shortly after the two chiefs of state broke an agenda deadlock and finally began negotiating their border conflict.

Meeting with Ben Bella and Hassan were the two mediators in the dispute which has critically affected North African unity: Conference chairman Emperor Haile Selassie of Ethiopia and host Mali President Modibo Keita. The four-power conference opened this morning.

An initial deadlock over the agenda prevented the two quarreling government leaders from meeting face to face on their arrival Tuesday and had threatened to wreck the meeting before its start.

Algerian conference sources claimed that any decision agreed to in principle at Bamako would be submitted to the Organization of African Unity (OAU) for detailed discussion and final approval.

The Algerian claims were received with caution by observers. Morocco so far has refused to pull its troops back from the region around Hassi

High-Priced Custodian Outdraws N.Y. Mayor

NEW YORK (UPI)—The salary of a Brooklyn high school custodian last year topped that of Mayor Robert F. Wagner, it was reported Tuesday.

Eugene E. Hult, superintendent of design, construction and physical plant for New York City, identified the high-priced janitor as D. Paul Bishop, 66.

Hult said Bishop made \$53,000 as against \$50,000 for Wagner. The only public official in the nation with a higher salary is the President.

Hult said it was reported last week that Bishop—supervisor of a 15-member janitorial staff at Bushwick High School—made \$43,665. However, a double check of the contract arrangements revealed the higher figure.

A special commission appointed by Gov. Nelson A. Rockefeller has been investigating the high cost of custodians and has turned up several instances of where custodians made more than \$40,000 yearly.

About 50 custodians have been subpoenaed for question-

Drug Price Fixing Hit

WASHINGTON (UPI)—Sen. Maurine Neuberger, D-Ore., said in a Senate speech Tuesday that new evidence of price fixing in the drug industry is "so rapacious as to make the infamous international cartels of 1930's blushing novices by comparison."

Mrs. Neuberger spoke as the anti-monopoly subcommittee confirmed it has received information from the New York Herald Tribune of price-fixing agreements among leading drug companies in the United States and abroad.

4 Concerts Scheduled

MOUNT SHASTA—The Community Concert Association of Mount Shasta closed its drive for season ticket sales on Oct. 19 with a total of 363 memberships sold in the immediate area. Four concerts have been scheduled.

Foreign Aid Critic Urges Further Cuts In Bill

WASHINGTON (UPI)—Sen. Allen J. Ellender, D-La., said today the Senate should cut its \$4.2 billion foreign aid bill by at least \$460 million and tighten it up in other ways.

The long-delayed bill to authorize another year of economic and military aid would fall \$300 million short of the \$4.5 billion asked by President Kennedy, even if it survives Senate efforts to inflict further cuts. But the \$4.2 billion total approved by the Senate Foreign Relations Committee was \$799 million more than the House voted.

Ellender, a longtime critic of the aid program, urged a \$300 million cut in military aid and a \$160 million slash in the committee-approved figure for the development loan fund.

Although the Senate began debating the aid bill Monday, no voting on amendments was expected before Thursday. Senate leaders virtually abandoned hope of finishing the bill before early next week.

Sen. Ernest Gruening, D-Alaska, proposed Tuesday a \$1.8 billion cut in the bill to eliminate countries where aid money "either is not needed or is being wasted."

Using aid figures for the past year, Gruening proposed that \$89 million for Europe be canceled, plus a like total that went in varying amounts to Brazil,

Libya, Dominican Republic, Honduras, Indonesia, Egypt, Syria, Algeria, Morocco and Argentina.

Democratic Whip Hubert H. Humphrey, Minn., said administration forces were prepared to guarantee a reorganization of the entire aid program and were drawing up an amendment to submit if necessary to head off a move to put a mandatory cut-off on the program.

You name it. You'll take it...in a '64 Valiant!

Any car... compact or not... can handle a straight, flat highway. Perhaps not quite as well as a Valiant, but well enough. No problem.

The real test of a compact is how well it takes the rough spots...sharp curves...steep grades...back-country roads.

If it takes curves like a sports car... climbs like a mountain goat... makes rough roads feel like smooth highways... then it's the best all-around compact! Then it's a Valiant.

Blowing our own horn? Sure. We're proud of our new Valiant. Test-drive one for yourself and you'll be blowing our horn too.
