

Paris Chamber Orchestra To Open Concert Season

The internationally popular Paris Chamber Orchestra under the baton of Paul Kuentz will open the 1963 Community Concert season on Tuesday, Nov. 19, in Mills School Auditorium. The opening number will be at 8 p.m.

This year's concert series promises to be one of the best in recent years, according to James Shields, association president. Also scheduled are: Monday, Jan. 27, Don Shirley Trio; Sunday, Feb. 2, Shirley Curtin, soprano; Thursday,

Feb. 27, Grant Johannesen, pianist. The Paris Journal Musical, Francois, commented, "our best chamber orchestra," as the 14-member talented and attractive young French artists left for its first appearance in

North America during 1961-1962 for an 80-city tour of Canada. Last season the ensemble of seven men and seven women returned to present a four-week tour in both Canada and the United States.

Paul Kuentz, founder and director of the Paris Chamber Orchestra, was a student of l'Ecole Supérieure de Musique of Paris and a winner of its first prize. He organized his ensemble some 10 years ago from among other prize winners of the conservatory. The group presented its first concert in April, 1951, and met with instantaneous success. Since then the young players have been heard in more than 500 con-

High-Wire Act Tumbles Again, 3 Hurt

SARASOTA, Fla. (UPI) — A tight wire on which the "Great Wallendas" were practicing their famed circus act snapped Tuesday, plunging the troupe to the ground and injuring three members.

The accident occurred while the Wallendas were attempting to construct their famous seven-man pyramid on a tight wire 12 feet above the ground.

It marked the first time they had attempted the feat since two of them were killed in a fatal accident in Detroit Jan. 30, 1962.

Three of the members of the act were treated at a hospital emergency room Tuesday and three others suffered bruises.

The entire sequence was captured on film by a cameraman photographing the act for a national television show (NBC's) DuPont Show of the Week.

The group was working at only 12-foot height because of the filming. The act normally is performed more than 40 feet in the air.

The last time the pyramid was performed it collapsed killing two of the performers and paralyzing a third.
