WALL STREET

WALL STREET

NEW YORK (UPI) — Stocks closed with their best gain of the week today, buoyed mostly by a bullish business news backdrop.

Gains in aerospace issues continued to dominate the list, still responding to reports that Russia is not out of the moon race. Among the upside leaders in this group were United Aircraft, Grumman, North American Aviation, Lockheed McDonnell, Beckman, Control Data, Texas Instruments, IBM and Motorola.

Wall Street Chatter

NEW YORK (UPI) — Goodbody & Co. says the increase in margin requirements to 70 per cent may slow the stock market advance.

"However," it adds, "historically changes in margin requirements have almost invariably failed to reverse the direction of the major trend. We believe that the self-correcting forces which appear to be at work are making for a healthy market — one that will be in a position to properly reflect the prospects for business activity in the months ahead. We would regard these periods of self-correction as good buying opportunities."

Moody's Investor Service states that "impressive earnings reports and expectations of dividend boosts have buoyed the market. Business is now rebounding from its recent slowdown and should show further improvement. Seasonal influences have turned for the better, but year-end tax activity may cause some unevenness."

PENDLETON (UPI) —Clyde Robert Wagner, 49, of Reith, was killed while logging in the Camas Creek - Pearson Creek area 13 miles east of Ukiah Thursday.

New Fiscal Program Proposed

SALEM (UPI) — A revised one - shot revenue plan that would add $20 million to the state's income this biennium was proposed today by Sen. Alfred Corbett, D-Portland.

Under the Corbett plan, withholding taxes would be usable by the state immediately after they were collected from employes wages, rather than when turned over to the state, as at present.

The Hatfield plan would have raised $12 million by speeding up the turnover of monies to the state.

"If we follow my proposal," Corbett said, "we will have available at least $8 million additional for blunting the harsh edge of Hatfield's budget cuts."

"I am not prepared to give final approval to this withholding program until we receive some assurance from the governor that these additional moneys will be used in some areas where we feel the cuts will be especially severe," Corbett said.

Wet Pavements Cause Mishap

Wet pavements were blamed for a one-car accident in which an automobile operated by Robert Edward Lee, 18, Tulelake, went out of control and overturned, about 1:30 a.m., Friday, on Highway 39, near Merrill, Oregon State Police have reported.

The car flipped into a ditch and then rolled back onto the highway, police said. Lee apparently was uninjured.

The vehicle was removed from the road by a local towing company.

$12,000 Found Strewn Around House Of Man Who Doesn't Believe In Banks

FORT DODGE, Iowa (UPI)— Harlan Phelps is a friendly, dependable man with few needs and fewer extravagances.

He walks 3½ miles back and forth from work each day. Most evenings he stops by a store to pick up some groceries. Then he goes home and listens to the radio.

He doesn't like television.

He also doesn't like banks.

His employer of 25 years, the U.S. Gypsum Co., for whom he is a maintenance worker, says the only trouble it ever had with him was getting him to cash his checks.

Wednesday night police burst into his modest white frame house and found $12,000.

The cash was mostly in old, faded, rotten and crumbling bills, strewn about in boxes and drawers and in piles of paper and rubbish throughout the house. Here and there were coins.

It apparently was money left over through the years from Phelps' meager expenditures.

Piles of Papers

Piles of newspapers covered most rooms two or three inches deep. Small cans of food were scattered throughout the house. A suit with wide lapels hung from the living room chandelier, apparently untouched for years.

A small television set stood in the living room, but cobwebs streamed from it to a nearby window, which was covered with tattered curtains. When found, Phelps was dozing by the radio.

Phelps, 62, who earns $100 week, might have gone undisturbed for who-knows-how-long, had it not been for a 16-year-old boy who got into trouble.

Police arrested the youth after it was reported he had purchased a used car for $200 and was spending money wildly. They found nearly $9,000 in the trunk of his car.

When the youth, J.W. Dock, told officers he took the money from a house in the modest Coleman section just outside the city limits, they were inclined not to believe him. He offered to show them the house.

Smiles About Loss

Phelps, smiling and amiable, said he had missed the money but did not report it because "I was afraid someone would find out about the rest of it."

He told police he didn't have much use for banks because "when you put the money in banks, you don't get half of it back when you want it." He said this happened to him once several years ago, but he did not elaborate.

Police gathered up the money to send it to the Federal Reserve Bank in Chicago for new bills.

"I guess I'll have to start believing in banks," Phelps said.

Birchers Sentenced

TORRANCE, Calif. (UPI)—A municipal court judge, terming the behavior of three John Birch Society members convicted of breaking up a civil rights meeting as "adult delinquency," Thursday fined each of the defendants $225.

Judge William B. Keene suspended 10-day jail sentences for the three, but placed them on probation for two years as a result of the heckling incident that broke up a civil rights meeting in this Los Angeles suburb Aug. 17.

The three men—John Rea of Rolling Hills Estates, Robert Cadle of Torrance and Jacob M. Sacks of Palos Verdes Estates—had pleaded guilty to charges of disturbing the peace. They denied the controversial Birch Society had anything to do with the demonstration.

In passing sentence, Judge Keene told the men their conduct "violates every basic precept of freedom of speech."

Man Shot By Spouse

GRANTS PASS (UPI) —Gerald Norvin Frye, 47, was in fair condition at Josephine County Hospital today after a shooting in a remote area of the wild Rogue River country Wednesday night.

His wife, Florence Ellen, 50, was held in the Douglas County jail at Roseburg on a charge of assault with a dangerous weapon. She was scheduled to be taken to Gold Beach today for a preliminary hearing.

State Police at Roseburg said Frye was shot in the abdorgen with a 9 mm Lugar pistol at the couple's home some 37 miles southwest of Glendale.

A cousin, Norman Frye, walked five miles to a road, from where he hitched a ride to Glendale Wednesday night and reported the shooting Glendale authorities called State Police at Roseburg.

It took a stretcher crew nearly 12 hours to get the wounded man across the Rogue River and carry him to a road, from where he could be taken to a hospital.

Driver Nabbed By City Police

A 49-year-old Klamath Falls man was lodged in the county jail about 5 a.m. Friday after police arrested him on South Sixth Street, near Altamont Drive, on a charge of driving an automobile while under the influence of alcohol.

Scheduled to appear in District Court at 3 p.m. the same day was David A. Burt, Rte. 3, Box 86, who was driving erratically when he was stopped by a patrol car officer, police said.

Suit Names Hanna Firm

WASHINGTON (UPI) The Justice Department today filed suit in Portland, Ore., to recover more than $1.8 million from the Hanna Mining Co. and the Hanna Nickel Smelting Co. for overcharges on a stockpiling contract.

It was the first government suit stemming from the stockpiling hearings conducted by Sen. Stuart Symington, D-Mo., last year.

President Kennedy last year expressed concern about excesses in the government stockpile of strategic materials and Symington then began investigating stockpile transactions, including the Hanna Nickel contract, a month later.

Atty. Gen. Robert F. Kennedy said that the suit filed in Portland today seeks to recover overcharges on a contract negotiated by George Humphreys just before he became secretary of treasury in the Eisenhower administration.

The contracts were based on the defense production act, which was designed to encourage domestic production of strategic materials like nickel which previously had to be imported.
