**Cranberry  
Pudding**

- MINCED CRANBERRY  
STEAMED PUDDING**
- 1 cup sifted cake flour
  - 1 teaspoon salt
  - 2 teaspoons baking powder
  - 1/4 teaspoon ginger
  - 1/4 teaspoon cinnamon
  - 1 tablespoon grated orange rind
  - 1 cup fine dry bread crumbs
  - 1/2 cup blanched almonds, chopped and toasted
  - 1/4 cup light brown sugar, firmly packed
  - 1/2 cup butter or margarine, melted
  - 3 eggs, well beaten
  - 2-3 cups (28 ounce jar) mincemeat
  - 1 can (1 pound) whole cranberry sauce, well drained

Sift flour, salt, baking powder, ginger and cinnamon into large bowl. Stir in orange rind, crumbs, almonds and brown sugar. Blend in melted butter. Combine eggs, mincemeat and drained cranberry sauce. Add to flour mixture and stir well. Pour into well buttered 2 quart pudding mold. Cover with tight fitting cover. Place on wire rack in a deep kettle. Carefully pour enough boiling water into kettle to come halfway up side of mold. Cover kettle and bring water to boil. Lower heat just enough to keep water boiling. If necessary, add more boiling water from time to time.

more complicated every year. Tax returns, insurance, investments, and other records are less troublesome if you have a business center in your home. The amount of space you devote to this center depends on the family. For a farm family business, more office equipment may be needed than when records are kept only for individuals.

An adequate business center must provide a place for writing, storage for writing supplies and current records, and files for records of incomes, expense, tax returns, and other important papers. In a new home the business center may be built-in. The family room or den is a satisfactory location in many homes. Shelves or a cabinet may be built above a drop leaf writing desk. The entire area can be closed if children play in the room.

Another solution is to build the business center as part of a storage wall. Doors which can be locked may hide the office center.

Good general lighting is needed in the area, and also, an additional light source near the work surface. This may be a desk or wall lamp placed so that it lights the desk top and does not shine in the worker's eyes.

At least one file drawer is needed—either in the desk or as a separate cabinet. Systematic filing saves both time and tempers. As a last resort, a file can be made from a heavy cardboard box. An accordion file is also very useful if the records are not too voluminous.

**THEY'LL ASK FOR MORE** — Be sure you make enough of this Beef Pot Pie. The flavors and the aroma will stimulate the most sluggish appetites.

**Fresher  
Mistletoe**

A simple method of treating mistletoe the popular holiday green to keep it fresh looking, and extend the marketing life and usefulness, has been developed by Agricultural Marketing Service researchers.

By dipping the mistletoe in an inexpensive solution, the leaves remain fresh and green, and the berries are still firm

and white at least 18 days after treatment.

Good results were obtained by treating the mistletoe with one of three plant hormones: 2,4-D, 2,4,5-T and alpha naphthalene acetic acid, used at the rate of 200 parts per million. An aging inhibitor: N6 benzyladenine, used at the rate of 100 parts per million, also was effective.

After treatment, the mistletoe was dried in the air, then held in cellophane bags—vented ones were found to be best—for 13

to 14 days at room temperature.

The water used in all treatments was demineralized and contained a wetting agent, added at the rate of one-fourth pint per 100 gallons of water. The demineralized water was used to prevent undesirable chemical reactions, and the wetting agent helped to increase the contact or coverage by the chemicals.

For a colorful garnish for the holiday ham or turkey, fill cored apples with whole cranberry sauce and bake as usual.

**Beef Pot Pie**

Beef Pot Pie is a good make-ahead dish. Follow recipe directions for browning the meat, simmering in the gravy so piquantly seasoned with canned tomato sauce, and cooking the vegetables. Then cool and refrigerate or freeze until needed. If frozen, defrost early in day. Turn into 3-quart casserole and set in oven heated to 375 degrees F. for a half hour. Then add the biscuits and bake 20 to 25 minutes longer. (Biscuits must be set on hot food, or bottoms will not cook properly.) Serve with a salad of grapefruit sections and avocado slices on salad greens with a good sharp French dressing.

For dessert, caramel or chocolate pudding, made from a mix, topped with whipped cream and silvered toasted almonds or buttered almonds.
