

Bill Lifting Restrictions On Timber Passes Senate

WASHINGTON (UPI) — The Senate Tuesday passed and sent to the House a bill to remove a 53-year-old restriction on the cutting of timber on Indian reservations.

The legislation, introduced by Sen. Frank Church, D-Idaho, would relax a law limiting the sale of timber to mature trees and to dead and down timber.

A report from the Senate Interior Committee said the legislation would modernize logging operations by permitting cutting on a sustained yield basis. The report said this would permit cutting of immature trees of poor quality.

Johnson Eyes 1964 Campaign

WASHINGTON (UPI)—President Johnson wants Democratic National Chairman John M. Bailey to stay on the job to prepare for the 1964 political campaign, a reliable informant reported today.

Bailey was reported willing to remain in the party chairmanship but it was understood that he had not yet been told that the new President wanted him. He was the late President Kennedy's choice when he was elected to the chairmanship by the Democratic National Committee in January 1961.

A White House source said Johnson's request for Kennedy appointees to stay in the new administration would include Bailey and other key officials in the national party headquarters.

One who may withdraw is Stephen E. Smith, Kennedy's brother-in-law, who was serving as a part-time trouble-shooter

and schooling himself for the 1964 campaign.

Johnson is expected to be the Democratic nominee for the presidency next year. In Bailey he would have a party chairman who has had a better opportunity than anyone to learn the strengths and weaknesses of the Democratic party apparatus.

Before he became chairman of the National Committee, Bailey was a charter member of the Kennedy political team which won the nomination and the election for the late President in 1960. He also is Democratic state chairman in his home state of Connecticut, a post he has held since 1948.

The Johnson administration and the Democratic organization must enter the 1964 campaign with problems which are a reverse of those now confronting the Republicans.

Johnson is regarded as a stronger candidate than Kennedy would have been in the South and some of the farm states but weaker in industrial states. This condition is compelling both parties to reappraise their campaign plans.

Demos Cancel All Activities

All activities scheduled by the local Democratic Club during the month of December have been canceled.

These include the Democratic Club bazaar on Thursday, Dec. 5; the Democratic Central Committee meeting on Dec. 5; and the Democratic Club meeting on Dec. 18.

License Reminder Issued

SALEM (UPI) — Passenger car owners whose license plates expire at the end of December should waste no time in renewing plates if they want to avoid waiting lines, the Motor Vehicles Department advised today.

The department said its offices become "extremely rushed" the last week of December because thousands of truck owners renew plates at the end of the year.

Construction Work Authorized At Kingsley

Congressman Al Ullman announced today that the Air Force will authorize its construction agent, the Navy Bureau of Yards and Docks, to proceed with the following military construction projects: Aircraft wash rack and alterations to aircraft general purpose shop at Kingsley AFB.

It is expected that the construction agent will now advertise for bids. No contract award will be made under this invitation until the Congress appropriates funds therefor, and such funds have been made available to the Bureau of Yards and Docks.

Further details on these projects as they become available may be obtained from Lt. Col. James D. Vandergriff Jr., Air Force Regional Civil Engineer for the North Pacific region, 301 Custom House, 229 NW 8th Avenue, Portland, Ore. Telephone number 227-7681, extension 555.
