

Beauty Tips
from ME to YOU
MARY MARTIN

We all have occasions when we want to look our extra best. These are the times when a few extra beauty aids will give us the confidence that will make us shine all evening. Let your favorite hairdresser do your hair in a special style—put yourself in her hands, she knows the styles that are best suited to you. Decorate your hair with an eye-catcher... such as a band of Rhinestones across the top of your forehead—pin a miniature flower on a ribbon and clip it on like a barrette, or make a glitter hair ornament out of a large rhinestone pin to match your earrings. Another idea is to sprinkle gold dust through your hair to make it sparkle.

BLUING IN STARCH

Try adding a good amount of bluing to the starch in which you dip your dark cottons. The tint will prevent the starch from showing on the dark fabric.
