
Be By Valedtide

Roses are red, vi'lets are blue
Id spots like Florida ad Tahiti.
But here where the crocuses croak—*ah-choo!*—
The sky is dark ad the gale is sleety.

Yet dreary clouds cad't eclipse love's shide.
So give be the dose-drops ad a tissue,
Ad if you will be by Valedtide,
As quick as this cold is licked, I'll kiss you.

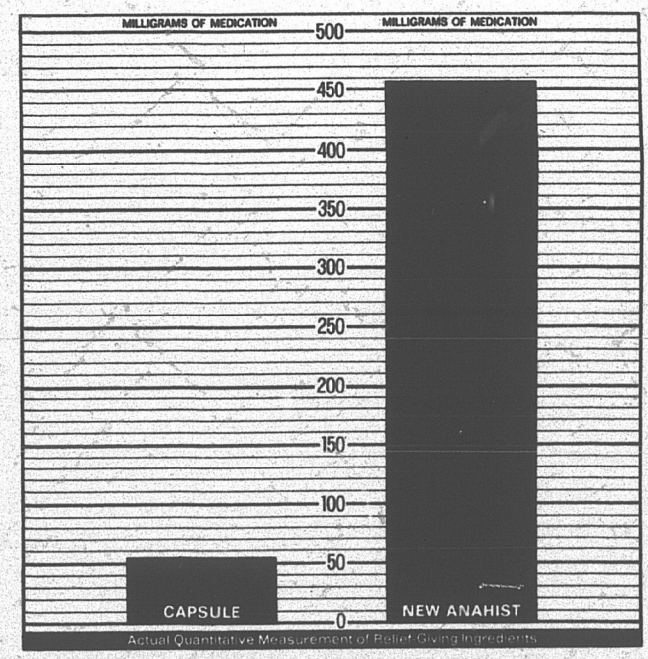
New Continuous-Action tablet has

8 times more cold-relief medication

than the leading cold capsule

The chart below shows the *big* difference between amazing new Anahist Continuous-Action Cold Tablets and today's leading cold capsule. An actual quantitative measurement of relief medications, the chart shows new Anahist gives you—not just 2 or 3—but *8 times more!* Why?

Though both formulas contain antihistamine and decongestant, new Anahist adds analgesics, a stimulant, an antitussive . . . all medications missing from the capsule. So Anahist relieves nasal-sinus congestion—plus headache, fever, coughs and muscular pains as the capsule cannot do.



Gives you more medication in the first 12 minutes than the capsule does in 12 hours.

New Anahist is as fast as it is strong. Instead of working pellet by pellet, the entire outer layer dissolves in minutes—a "sunburst" of medication for fast relief. And thanks to the powerful inner nucleus, relief continues all day or all night.

So don't settle again for pellet by pellet relief. Get 8 times more cold-relief medication with new Anahist Continuous-Action Cold Tablets.
