The People Say

UNTAXED TIMBER SHOULD BE PLACED ON TAX ROLLS

Editor Klamath News:

The time is near when the voters of Klamath county will decide whether or not they desire an administration for the small property owner and taxpayer or the large non-resident taxpayer.

The men who signed the petition asking C. H. Underwood to make the race for county commissioner were not told the real facts. Why? It would not sound good in the first place and would not be popular in the second place.

Does the truth ever hurt anybody? The public can be the judge.

If Burrell Short is elected commissioner for the next four years we have every reason to believe that many thousands of dollars of value will be put on the tax rolls of Klamath county, that C. H. Underwood says he will investigate but he does not say he will favor, namely a recruise of the timber lands. Our present county court have been in correspondence with a number of reliable timber cruises and find it a business proposition to get timber of the tax rolls.

One reliable firm has just finished cruising 80,000 acres in Lake and Klamath counties and find on the average just a fraction over a 50% cruise.

Do you blame the big interests for not wanting Burrell Short re-elected. The small mill owner is conceded to be a thing of the past. Do Klamath county people want our town and county owned and controlled by just a few timber barons on their own holdings or do they want Klamath Falls and Klamath county to

invite the world to come to our county to help develop one of the greatest empires in the west?

Why befog the issue, and ask the voters of the taxpayers on the pretense of good sound business principles, where they say themselves that they only want control. Burrell Short needs no introduction. You all know him and have never found him anywhere except for the right. A

vote for Short is a vote for yourself.
