MORTENSEN AT C. OF C. MEET IS SPEAKER

That the recent Coolidge victory was a victory for American principles and for the established government of the country is the opinion of H. D. Mortensen who spoke before the chamber of commerce at the weekly luncheon at noon yesterday.

Mortensen said that he had reference to national issues only when he said that the recent election was the vindication of the long established and tested forms of the government of this country and a rebuke to those who desired a change.

ROAD BONDS CARRY WITH BIG MARGIN

The road bond issue of \$125,000 carried by an overwhelming majority being as much as four to one in many of the precincts though not going quite that strong all over the county. Because of the different manner of handing this question and the separate ballot the figures for the precincts are not available now.

\$50,000 VOTED FOR LIBRARY BUILDING HERE

The city library bond issue of \$50,000 has carried with a liberal margin for safety.

No exact figures are available this morning but with only two exceptions the proposition carried in every precinct in Klamath Falls. In the Mills Addition the majority for the "Nos" was quite small and in the Sixth precinct it was even smaller.

The bond issue will bring in money to buy a site and build a home for the city library now housed in the old building on the courthouse square. The new building is planned to contain rest rooms and a small auditorium designed especially for the meeting place of the women's clubs of the city.

It is understood that plans are being made for an early discontinuance of the present library on the courthouse square and either temporarily housing the institution elsewhere or suspending its operations while the new building is being built. It is probable that a temporary location will be found rather than closing the library.

to efficiently serve the people of Klamath county.

The accuracy of the election returns in the special of yesterday morning has caused considerable favorable comment. The table of electoral votes on page eight of yesterday's paper was remarkably accurate and could be compiled in such a manner only with the assistance of the United Press service which omitted no detail of the election news of the nation.

Local election news was correctly interpreted and the results, though the counting was far from half completed, were given the people in the Special.

This paper mentions these things merely to call to the attention of those who may have overlooked it, that newspaper making is a science and an art as well as a business and that to do it successfully those on the job must understand all phases of the work.
