### MAYOR-ELECT SPEAKS BEFORE KIWANIS CLUB

F. R. Goddard States Position on Progress of City According To His Plans

That every person, irrespective of social or business standing, will get a square deal in Klamath Falls under the regime of Mayor-Elect F. R. Goddard was one of the outstanding statements made by Goddard in his address before the Kiwanis club Thursday.

The successful candidate addressed the gathering at the request of President W. A. Wiest, who in introducing the speaker said that he had always wanted to know how a successful candidate felt on the morning after election and, failing to be able to get that personal sensation he was asking Goddard to give his reactions.

Goddard emphasized the need

of building the city with the young people, the growing generation, in mind, as little can be done with those who have already formed their associations and habits, while the youth of today, unsuppressible, can be directed along lines leading to proper development and education.

P. E. Burke, candidate for state senator in the recent campaign, was also a speaker at the luncheon, and he spoke his appreciation of the generous support given him by the Klamath county people with a strong majority in this county.

### 100 MILLIONS IN OIL RIGHTS ARE GIVEN OUT

LOS ANGELES, Calif., Nov. 7.—(United News)—The extent of preferential rights in the naval reserve No. 1 of Elk Hills district, requested by the Pan-American Petroleum company on its bid for the construction of the second unit of the naval oil storage facilities at Pearl Harbor, Honolulu, was not realized by Rear Admiral J. K. Robison, he admitted in cross examination today. These rights involving permission to drill, are worth approximately a hundred millions it was estimated.

Robison followed this admission with two more upon which the government laid stress. He admitted that he was in error when he previously said he had discussed the naval reserves with former Secretary of Interior Fall "several times from October 9, 1921 until the policy of handling the reserves was drafted Oct. 25." This came when Roberts showed him travel voucher disclosing that Fall was away from Washington until October 17. Next he admitted there was an error in the testimony of E. L. Doheny before the senate committee in Washington, when Doheny stated that Robison has conferred with him at Doheny's New York home concerning the Pearl Harbor storage.

### NEW RAIL LINE CUTS OUT WEED ON ROUTE HERE

That the Southern Pacific company intends to construct a new rail line from Grass Lake to a point on the main line just north of Sisson (now called Mt. Shasta), starting work as soon as the Natron Cut-off is about completed, was in a great measure confirmed yesterday by one of the men in charge of construction on the Natron Cut-off who was in Klamath Falls.

That expensive equipment needed in the construction work now going on can be used for about two years after the present work is finished is the information which this man says was given him when he was considering the purchase of this equipment.

The distance over the present route from Sisson to Grass Lake is 36 miles and this will be shortened about three miles by the new route. This distance is not vital but is of no small importance, but the fact that the new route will hold the rails to a uniform and very moderate grade from Sisson to Grass Lake and avoid the drop down into Weed and the very stiff climb up out of there will save many thousands of dollars in the cost of operations of trains. The present line through Weed to Klamath Falls is scarcely practical for the operation of through trains.
