WHAT 1800 FAMILIES KNOW ABOUT ELECTRIC COOKING

THEY will tell you it is a new kind of luxury—one that doesn't cost more to enjoy.

Of course you have always appreciated the advantages of cooking by electricity. You know that it means no more fuel to carry; no more ashes to lug. You know that electricity is the ideal cooking heat; economical because it is turned on when you need it—not before; turned off when you're through—not later.

But perhaps you would like to know exactly what it costs—in dollars and cents. The 1800 satisfied families who now use electric ranges served with electricity by this company would gladly show you their bills, if they could.

We have made an average of these bills, so that we may give you the facts. The average cost of electric lights alone in all homes served by this company in Oregon is \$2.20 a month. The average cost of their electric lights and electric cooking together is \$5.62 a month.

For the difference, could you buy ordinary fuel for cooking? And if you could, would you want to? Whenever you decide to investigate this question of electric cooking closely, your nearest dealer will tell you many interesting things. And he is prepared to install your new electric range at once, on convenient terms.
