Build with STONE-TILE

Attractive Appearance

To secure the best appearance in a masonry building the wall surfaces must have life, according to architects, and Stone-Tile hollow concrete brick bear out this statement to the fullest extent.

The distinctive pitted texture of Stone-Tile units made possible by this process of manufacture is largely responsible for the attractive soft effect of Stone-Tile walls. The close spacing of horizontal joints adds further to the pleasing appearance. Stone-Tile is equally suitable as a base for face brick or stucco veneer and is lowest in cost for permanent construction.

Don't Forget! First Bonus Offer Of Big News Contest Is Near

Attention is again called to the close of the first bonus offer of The News contest, 200,000 extra votes for every \$30 in subscription collections turned in by Monday, June 1st at 9 p. m. Now is the time that your subscription payments count most and now is the time to get in and collect in on all those promises that have been made to you since you started to work in the contest.

One dollar today is worth two dollars during the last "period" of the contest, so unless you get in and work now and collect every possible promise that has been made you, you will have to work just twice as hard in the end.

Listen, folks, have you picked out your favorite candidate? If you have, give her your subscription and give it to her now—now is the time it will count most, and now is the time she needs it. If you have not, it is time that you are getting behind someone and giving them the benefit of your subscription.

Five one-year subscriptions at this time will earn a bonus of 200,000 extra votes. If these are new subscriptions they also earn 180,000 votes, which will make 380,000 votes for \$30 in subscription collections. This alone is apt to decide the winner of the first big prize. Your subscription payment may mean a small fortune to one of the contestants—your favorite—why not give her these extra votes now?

Gossard Corsets and Brassieres

The Gossard Line of Beauty

We believe no other garments are so important to a woman as her Corsets and Brassieres. They, more than anything else, keep the youthful Gossards—which we are pleased to show you in a full range of sizes and prices—give the figure the ideal lines of the type which it belongs.

Prepare for the rainy day When figures fade away

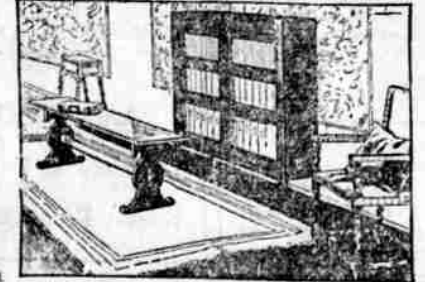

Little does the slight figured girl dream she will ever lose her lithe lines. She will, in a few years, unless a Corset that protects her figure in its natural lines is worn. So lightly boned, these Gossards, she'll never know it is on. Low, comfortable, elastic top. It is better to preserve the figure by proper Gossard Corsetry, than to attempt reformation after gross neglect. There are many mature women still youthful because of the efficacy of Gossards in years past. See them in the window.
