ARISTO MOTOR OIL Cleaner Miles and more of them -With the Right Oil What is the right oil? Not a matter of opinion, nor of price. But one of selected crude, modern facilities, and careful refining. An example of this is Aristo Motor Oil. It is made with quality as the only consideration. Yet its price is almost half that of eastern oils. The reason for this is simple: Aristo does not carry excessive freight costs from the east. It is refined in California, from western crude of select quality. And it benefits by volume production. Aristo combats the formation of carbon. It is an unexcelled lubricant. If, in fact, a better lubricant were possible—regardless of price—it would be made by the Union Oil Company of California. Aristo is sold wherever you see the Union Oil sign. At Union Oil service stations, and at independent dealers of the first class everywhere. ARISTO Motor Oil BEST ALL WAYS Union Oil Company of California Also Producers of Union Gasoline
