An Electric Iron
with perfect ironing temperature
If you iron, you will be interested in the Westinghouse Iron. This iron, already famous for its beveled base, largest ironing surface, even distribution, and cool, comfortable handle, is made to think for you.
You can now make every minute at the board count. It heats quickly and then stays not too hot—just hot enough. If you are away from your ironing to answer the telephone to take care of some other household duty, it matters. Start right in where you left off and iron will be ready.
Whether you work fast or slowly; whether you use it constantly, or leave it for a while, and you forget it—it is thinking, acting, and making that perfect ironing temperature.
And isn't the assurance of perfect ironing temperature the greatest news for the woman who...
