OFFICIAL PAPER OF THE CITY OF KLAMATH FALLS

"Let us have faith that right makes might, and in that faith let us to the end dare to do our duty as we understand it"—Abraham Lincoln

A LEVEL-HEADED STATEMENT

In a recent address which dealt with various problems affecting the lumber industry the perpetuation of our timber supply and conservation of our natural resources, John W. Blodgett made a key note statements inseparable from our whole government and industrial structure when he said:

"The urgent need today is for a unified, comprehensive, and consistent public policy toward our natural resources. Such a policy must represent both the Federal government and the States, and should be formulated in accord and in cooperation with the best thought of the industries engaged in their utilization. These industries should not be prevented or hampered by unsound interpretation or by unwise application of the laws governing business organizations. The trouble today is that in the application of these laws to an industry, the investigation is usually made by men of no knowledge of the general conditions which may make monopoly in that industry an utter impossibility."

FIRE INSURANCE NOT A COMMODITY

"Fire insurance is not a commodity to be bought and placed on the shelf," said a recent report of the Committee on Fire Insurance of the National Wholesale Druggists' Association, "It is a contract which includes continuing service on the part of the agent, and a possible future contingent payment in case of disaster. The buyer of this contract should exercise the same care in selecting his insurance representative that he would in choosing his attorney."

"Do not under-estimate the value of the services of an experienced insurance man in preparing forms of contract, selecting the best arrangement for protection, as well as pointing out possible reductions in insurance costs through removal of hazards and increased fire protection, and the permanent improvement of your premises by better construction."

Someone, of course, will fight to victory down in Tennessee over the theory of evolution. Whether it be the Hon. William Jennings or the famous Darrow, the fight will be to a draw as far as convincing any of those on either side whose minds are set.—Hood River Glacier.

TODAY'S RECIPES

Vegetable Pie—Two cups diced or shredded raw potato (white or sweet), two cups diced raw celery, one cup diced raw onion, one cup shredded raw carrot, two cups cooked Brussels sprouts, cauliflower, kale or cabbage, one cup tomato juice or other vegetable stock, salt, pepper, rich biscuit dough. Cook first four vegetables in boiling water for 10 to 15 minutes, drain, all cooked Brussels sprouts, tomato juice and seasonings. Place in baking dish. Use stock drained from boiled vegetables instead of water or milk when making biscuit dough for crust. Line sides (not bottom) of baking dish and cover top with dough. Bake until crust is browned. Cooked cauliflower or kale or even cabbage (cooked or raw) may be substituted for the Brussels sprouts.

Cheese Patties—Cut circles out of stale bread with a cookie cutter. Dip them in melted butter and brown in the oven. Fill the centers with mixture made of one tablespoon of butter, milk and three tablespoons of grated cream cheese. Sprinkle with a little red pepper. Place in the oven once more to toast the cheese.

Strawberry Fluff Pie—Line a pie tin with a rich pastry and fill with the strawberry fluff prepared as follows: Crush two cups of fresh berries, add one cup powdered sugar, one level tablespoon cornstarch, the well beaten whites of two eggs and one-half teaspoon of vanilla. Bake in a moderate oven and serve cold with or without whipped cream.

SUGGESTION

Consistency is the sister of good taste, and should be the keynote in all our furnishings. Any family, either by scheming or sacrificing, can acquire a few extravagant or over-elaborate pieces of furnishings, but if we have a modest home, then simple, artistic furnishings consist-

ent with the home and the owner's income, will proclaim an independence of spirit, a superiority of taste and an appreciation of the finer things of life, much more than would a similar amount of money spent on a few expensive, showy, or unsuitable things.

Materials That Wash

For warm summer days one must wear clothes that tub well. Silk requires less washing than any other fabric, as dust does not collect on silk fiber. Great care must be taken to wash it, however, and only the mildest soap used and the water used to wash and rinse should be of the same temperature. Cotton catches dirt and soils easily, but may be boiled without injury to the fiber. Allowance must be made for shrinkage, however. Linen is the most cleanly fabric in the world. It collects few bacteria and sheds dust. It musses easily and must be frequently washed, but comes from the tub with all its original freshness. White linen is the most serviceable, as colors are apt to run.

DINNER STORIES

Two young lawyers, both trying to make reputations as orators, happened to be pitted against each other in argument. Both spoke at great length, and in closing the second speaker remarked that he was sorry to find his colleague on the wrong side, for there was every reason why they should agree.

"We were brought up together, we studied together, and we were born on the same day."
"Did I understand you to say that you were born on the same day?" asked the judge.
"Yes," came the prompt reply.
"On the very same day?"
"Yes, sir."
"Then it must have been a very windy day."

There was no doubt he was an expert at "telling the tale." And moreover, in this case, it succeeded very well.

"It is a very sad story, my many," said the lady in furs as she handed over a coin, "and I feel very sorry for you. Are you married, by the way?"

As he pocketed the money he replied: "Married, lady? Married? Do you think for one moment I'd be depending on outside support if I was married? Not likely."

A man received the following note

from his actor son, who had joined a touring company:

"I have made a great success. Will you send me \$5 to pay land-lady?—Your devoted son, Algy."

"P. S.—Since writing this letter I am ashamed to ask you, so I ran after the postman and tried to get it back. I pray it does not reach you."

The son was surprised when he received this reply: "Dear Algy, your prayer was answered. The letter did not reach me."

Robinson was well known in the club as a vegetarian. The members were hardly surprised, therefore, when his friend Jones burst into the billiard room one evening and announced:

"Robinson has been true to his vegetarian principles."

"What's he doing now?" they asked.

"Haven't you heard? He's run away with a grass widow!"

Mrs. Brown: "Jane, has Mr. Brown come home yet? I thought I heard him just now."

Jane: "No, mum. That was the dog what was growling."

Governor Raps Evolution Trial

Exponents of Tennessee's anti-evolution law are stirred by the statement of Governor Austin Peay that the trial of John T. Scopes for violation of the law is "all bosh," and that "as long as the evolutionists stick to the present Tennessee text books in their teachings, they can do no harm." The governor will not attend the trial.

HEART AND HOME PROBLEMS

An amused male brings in an unfavorable report on the girl of today, in the following letter. Inspired by the following letter from discouraged Lu published in this column. He says:

Dear Mrs. Thompson: Please permit me to butt into your column, which I read daily, and express my complete sympathy and understanding towards "Discouraged Lou" in her doleful plight. Her aversion of the "petting lizard" is natural for a decent girl, and it is a pity more girls do not feel the same way. Such petty "sheiks" could be exterminated if more of the right kind of girls would ridicule instead of encourage them—vanity being the male's sorest point! Vice versa, why is it that we have still so many dance crazy, boy crazy, pleasure loving Dumb Dornas in our midst? They throng our cities with their ridiculous dresses and cosmetics, and their astute rackets. Yet each of them has a full quota of admiring boy friends. Ye Gods! It seems almost an insult to American intelligence. In the near future I feel confident that divorces will be obtained on the meat ticket plan—bought by the dozen and each one scored off as used. Such at least is the tendency of a large percentage of young folks today. The letter of "Discouraged Lu" came as a puff of cool wind in the desert of hot air, and compelled

me to write an opinion on the matter they are applicable.

JUNIOR: I'm sure you'll find it much more difficult to "break the ice" than you think. The only "nice" lady I've ever met is in a quiet place. I'm sure you'll find it much more difficult to "break the ice" than you think. The only "nice" lady I've ever met is in a quiet place.

THE BEST OF ADVICE

There is such a thing as "thinking too much."

All of us have a certain capacity for thought.

The brain can be ruined by overstrain, just like the eyes.

It should be understood that thought is nothing but the organic function of the brain; and it has to obey the same laws in regard to exertion and repose as any other organic function.

As the function of the stomach is to digest, so it is that of the brain to think.

A scientist observes that "the notion of a soul—as something elementary and immaterial, merely lodging in the brain and needing nothing at all for the performance of its essential function, which consists in unceasingly thinking—has undoubtedly driven many people to foolish practices, leading to a deadening of the intellectual powers."

Frederick the Great for instance, once tried to form the habit of doing without sleep entirely.

This same authority declares that a man should accustom himself to view his intellectual capacities in no other light than that of physiological functions, and to manage them accordingly—nursing or exercising them as the case may be; remembering that every kind of physical suffering, malady or disorder, in whatever part of the body it occurs, has its effect upon the mind.

Through neglect of this rule, many men of genius and great scholars have become weak-minded and childish, or even gone mad, as they grew old.

It is important to allow the brain the full measure of sleep which is necessary to restore it; for sleep is to a man's whole nature what winding is to a clock.

One other thing about the brain we should keep in mind:

It is taught that every month of the year has its own peculiar and direct influence upon health and body conditions generally; nay, even upon the state of the mind.

It is an influence dependent upon the weather.

You know the period of the year that has the most favorable effect upon you. Choose this time for your great enterprises.

COLIMA-HUFFMAN BOUT TO BE HELD JULY 21

LOS ANGELES, June 13.—Bert Colima and Eddie Huffman, former light heavyweight champion of the navy, today signed a contract to meet in a ten-round decision bout to be staged here on the night of July 21.

The boxers were secured by Jack Doyle, local promoter, who has a permit from the state boxing commission to stage an outdoor card on that night.

You should not expect more than you should expect in the city to see you.
