Now comes the new MONTAG STERLING Jr. Range [BUFFET TYPE] A high grade range at an unusually low price!

We know of no other range made in America that compares with the Colonial Buffet Type for range value; certainly no other range offers more in quality, or in practical constructive features designed especially to meet Pacific Coast requirements.

The many years' satisfaction it will give you in cooking and baking, and in the saving of fuel, will far exceed its low price. Sturdy appearance, pleasing design and plain smooth finish will quickly arouse your desire to own one of these ranges.

Two Practical and Economical Features of the COLONIAL Buffet Type Range

—the French Cooking Top
Heats quickly and uniformly, and holds the heat longer than the partitioned top. Being smooth and with large flat surface, cooking utensils fit snugly to it, insuring quicker results in cooking. Steaks, eggs and hotcakes can be cooked directly on this top, as on hotel and restaurant ranges.

—the Wide and Shallow Firebox
The correct design and liberal proportions of the Pacific Coast firebox insure quick cooking and baking. It brings the heat directly up under the cooking top and gives "volcano" heat flow around the oven. A fuel saver, too. Double grates for wood or coal.

Come in and inspect this snappy new range!

\$10.00 delivers this COLONIAL Range to your home. Balance easy terms.

There are many other quality features you'll be interested in knowing about—the high grade porcelain enamel parts; Armco Rust-Resisting iron, which is used extensively in its construction; the excellence of workmanship and finish throughout.
