Another June bride was Tillie Brundage who was married to Roscoe Largent at Chiloquin Thursday evening. Mr. Largent is the son of Mr. and Mrs. Thomas Largent, residents of the island. The marriage was a surprise to their many friends and relatives.

There was a road meeting held at the Largent home Saturday evening. The meeting was held for the purpose of deciding on where would be a good place to make the county road, which they want on the island.

CITY CREAMERY IN NEW HOME

The City creamery moved into its new quarters on Spring street last week, into a building 60x40, with all modern conveniences, including a hardening room for the ice cream. The building is of brick, reinforced, and contains a brine tank with an ammonia process in the freezing pipes with which to manufacture all ice used by the plant and their patrons.

The company will specialize in butter and ice cream, with their recently installed York refrigerating plant. The butter will be placed in the storage room, where it will be cut and packed.

With a zero temperature at all times, the ice cream room will prevent any interference from hot weather.

A booster for Klamath county and Klamath Falls and every legitimate industry therein—that's the Klamath News.

ONE DIVORCE TO EVERY 3 MARRIED IN LOS ANGELES, LATEST STATISTICS

LOS ANGELES, June 23.—The average of divorces here is one to every three marriages. Judge Walter S. Gates, who presides over the alimony court—he sometimes calls it an alibi court—believes that cities and particularly apartment houses, are to blame.

"Country folk rarely get divorces," he said. "Maybe it is because people who do not live in cities have no time for them.

"Many of our divorce cases spring from apartment houses—congested districts. Civilization is too strenuous and people cannot be happy, cooped up in close quarters."

Judge Gates declares that every ache and pain and financial woe

that is known to humanity is aired in his court.

"The county hospital has nothing on this court," he said. "To hear many of the litigents tell their stories this is a city that is poverty stricken; all the men are ill and all the women are hungry.

"With an average of one divorce to every three marriages, you might get discouraged about the safety of matrimony, but I am still an optimist. I believe the old pendulum will swing back the right way eventually."

Judge Gates declared that many separations could be avoided if some mediator—either appointed by the court or chosen from among friends of the warring couple—were provided for by law.

CATTLEMEN OF KLAMATH MEET HERE SATURDAY

Acquainting Oregon cattlemen with the California plan of co-operative marketing of beef, an important meeting will be held in the chamber of commerce rooms at 2 o'clock Saturday afternoon.

W. C. Dalton, president of the American National bank, and one of the biggest beef growers in Klamath county, is taking an active part in boosting the California movement before local growers.

The policy of the California Cattlemen's association as announced by that organization, sets forth the purposes of co-operative marketing which have been the basis of operation in all successful co-operatives in California.

While cattle constitute a distinct class of commodity, the problems of marketing are similar to those of other perishable products, and the policies of the cattlemen are very similar to those of the citrus, rice, walnut and raisin growers associations—all of which have proven to be very successful.

The policies as announced are as follows: The adjustment of production to meet demand by keeping producers informed on market conditions.

Improve the quality of beef by selling on grade, which will allow sufficient spread between high and low quality to insure the profitable production of well finished cattle.

Orderly marketing through efficient distribution to markets of the west.

Through a proper merchandising

policy, to secure the best possible price for cattle sold, as determined by quality, supply and demand.

These objects are based on sound economic principles and can be accomplished for the cattle industry through co-operative effort only. The rapid development of the new cattle co-operative association indicates that California has another pioneer undertaking which is bound to succeed.

SHEPHERD CASE TO JURY FRIDAY

(Continued From Page One)

plea for the verdict giving "the vengeance of the law," and thundered in the end, "the wages of sin is death."

Stewart had not completed his arguments when court adjourned for the day. He will resume the argument Thursday morning and when he concludes W. W. O'Brien, Shepherd's other lawyer, will speak.

Thereafter state's Attorney, Robert E. Crowe will conclude the state's arguments. Crowe, who fought for a hanging verdict for Dickie Loeb and Nathan Leopold in the Franka murder is expected to make a typically fiery address.

It is expected the case will go to the jury Friday.

Be sure of your furnace!
Your comfort—even your health—depends on the kind of heat you obtain from your furnace. That kind of heat depends on the construction of your furnace and the skill with which it is installed in your home. Health requires an abundant circulation of warm moist heat! Not just heated air. Comfort requires adequate heat at minimum expense and effort.

If you spent 60 days straight at the kitchen stove
—you'd see why it is that nearly eighteen hundred homes within reach of the Copco lines are now using electric ranges.
Two hours a day, every day in the year, is probably a low estimate of a housewife's time in the kitchen. Sixty full days, in all—and they're worth making easier!
Electrical cooking is easier, and cleaner. It puts an end to dirt and ashes. It means less sweeping of floors, less cleaning of walls, cleaner utensils.
Electrical cooking is tastier. Uniform, controllable heat saves the flavor of dainty foods.
Electrical cooking is economical—surprisingly so. The average cost of electricity for cooking is only about twice the cost of the electric lighting current in the same home. (Actual average figures for your own neighborhood will be shown you upon request.)
Don't pass the next display of electric ranges without just dropping in and asking your dealer more about them—and about the convenient payment terms he is offering.
