## STORKS will live ONLY in REPUBLICS

—Or so people used to think in the 16th century. This is the 20th century. But we are still superstitious; for example, when we pay fancy prices for eastern lubricants in spite of the fact that the best grades so far discovered for the manufacture of a motor oil are obtained from wells on the Pacific Coast.

**Experience explodes the anti-western oil superstition**  
Zerolene actually lubricates better—and because it does it lubricates more cars in the Pacific Coast states than any other oil made—low and high priced cars alike. The most advanced refining process is this Company's patented high-vacuum process, during the use of which Zerolene is submitted to 15 positive checks for quality. Zerolene's special filtration through 40 tons of Florida Fuller's Earth gives you an oil that's absolutely pure and safe.

**A longer working life for your motor**  
Zerolene will increase the gasoline mileage of your car, reduce carbon accumulation and lengthen its working life.

Why pay tribute to a superstition? Insist on Zerolene—ask for it by name.

**Get the Facts!**  
A series of independent and impartial reports showing the experience of large users with Zerolene has been collected in our booklet, "Why Pay Tribute to a Superstition?" Ask any Standard Oil Company representative or Zerolene dealer for a copy.
