FACTORY GIRLS ON THE JOB

They Are a Bunch of Live Ones

The foreman of one of our local factories had noticed recently the improved looks and vivacity of his force. He decided to investigate the cause, for it was unusual to have his force so willing and active.

He did not make much head- way until he interviewed a young woman, who was a leader among the girls. From a thin, pale and nervous girl, she had become red- checked, figure rounded out, and now had the strength which meant an increase in work and wages.

She said: "The answer is easy. My change in appearance and in- creased efficiency are due to Kath, the Gland Tonic. A friend of mine from a medical school told me that our health was controlled by glands, and I was feeling so mis- erable that when one of the girls told me about Kath, I decided to try it, and the results speak for themselves. I made up my mind to tell all the girls about Kath, for they were kind in their comments on my improved appearance, and today we have as healthy a lot of girls as one would wish to know. They are all boosters for Kath the same as I am."

Kath, the Gland Tonic, will give young and old renewed strength and vitality. It will restore lost appetite, and cause restful and re- freshing sleep, so that one can face life's battles with a smile.
