"Let us have faith that right makes might, and in that fuith let us to the end dare to do our duty as we understand it"-Abraham Lincoln

ADVERTISE YOUR HOME TOWN

The tourists of any county advertise it for better or for worse, depending upon the impressions made on them and the treatment accorded them by the local citizens while they are stopping in the community. Many people become so accustomed to tourists, that they are inclined to remain indifferent as to the strangers' welfare. From a community standpoint this is a great mistake, to say nothing of the humani-

It is a man who comes into your town and then leaves that tells the outside world what kind of a town you have. He is the man who either will come later and bring his family to reside in your town, or induce others to come, provided the town and its people impress him favorably. He also is the fellow who will give your town a black eye if he receives the slightest mistreatment or if the place does not appeal to him. Memories, either for good or bad, linger with him, and he is not averse to telling the world all about it.

Don't overcharge tourists. This is the "sticker" with them. They will remember an overcharge long after you have spent the money it represents. A penny gained in overcharging is a dollar lost to your community's future.

The Bible says something about not turning the stranger from your door lest you may turn away an angel unawares. So it is with the tourists. Remember, he has the energy, the ambition and the money to come on a long trip, and the courtesy to make your town one of his objective points.

Good hotel facilities always help a community to grow. And with good hotels should come ample and well-managed auto camp grounds. Although some folks "turn up their noses" to so-called "tin can tourists," they are often future valuable citizens in dis-

Know your community better. You'll be the better able to "sell" it to your guests. Call at auto camp, welcome its guests, converse with its supervisor, and learn the great good it is accomplishing for YOUR city and county.

A LIFE AND MONEY SAVER

Electricity and the telephone have been the two greatest labor savers and conveniences ever given to

But now comes the electric refrigerator for the small home and farm.

It promises to be the savior of mankind from many ills and losses, with which he has been afflicted because of food either spoiled or improperly cared for previous to eating.

The electric refrigerator adds the final touch to modern housekeeping which makes food storage practical and safe, and as satisfactory as the gas or electric range.

Electric refrigeration will revolutionize the question of food and produce storage on the farm.
