"The best worker on the ranch"

"Yes, sir, that old Ford hasn't soldiered a day since I took to using this new Zerolene 'F' for Fords."

Ford owners who "tried out" Zerolene "F" for Fords when it was first put on the market have been sticking to it ever since.

Zerolene "F" for Fords is made by the Standard Oil Company's patented vacuum process. It lubricates all the bearing surfaces where oil is needed, especially the wrist-pin bearings and the upper half of the cylinder walls, which are frequently "oil-starved" when an unsuitable lubricant is used. The result is improved gasoline mileage, quicker starting and increased freedom from carbon and other motor troubles.

A Ford is an A-1 transportation investment. Protect your investment by proper lubrication.
