

ING OF INDIAN SQUAWS THESE LS KNEW THEIR STUFF; THE DID, TOO; THEY'RE HAPPY

apper-Wives Divorce Redskin Husbands Be-
Go Into Movies; Braves Find Heap Big
mas; And Mrs. Mud-Wrinkle Won Her A
In The Bargain

July 14.—The process of divorce, perfectly
legal, according to Navajo custom,
consisted simply of throwing the
husband's things out of the hogan.

Keep On Reading!

The first the braves knew of
the revolt was when they returned
Monday from their acting jobs plus
\$19 a day and fine store clothes.
The 15 reviewed the evidence of
divorce with considerable calm, even
for Indians. They gathered up
their belongings, knowing full well
that no Indian with store clothes
and real money would go mateless
long.

So, 15 bucks, including old Mud-
Wrinkle, strode up the avenue of
tents and before they had reached
the end of the street, all 15 were
happily lodged in new hogans with
new wives.

And How—The Kick!

Mrs. Mud-Wrinkle washed her
face, combed her jet black hair and
sat in front of her hogan with her
worldly wealth before her. A young
luck paid a fitting tribute to her
beauty by entering her house with
his saddle blankets.

All things considered, the Navajo
camp is highly elated, the braves
like their new squaws and the
squaws like their new braves.

BELIEVE IT OR NOT

TARANTO, Italy, July 14.—A big
shark with one swipe of its tail,
capsized a rowboat and threw four
bathers into the water. Then it
started for its banquet. (Bear in
mind, readers, that this was not
staged for a movie.) Suddenly the
artillery began to roar from a near-
by fort and chased the shark out
to sea.

Mother Was a Good Cook Because She Took the Trouble to Learn

Mother did the best she
could by utilizing old-
fashioned methods of
cooking and baking. Her
results might have been
even better if she had
used electricity to do the
work.

Come in Today and learn how to Bake Cake by Electricity

You have the chance that mil-
lions of mothers never had. With
less time, far less work and worry,
you can prepare wonderful meals
whether you are at home or not.
The Westinghouse range operates
automatically. By merely setting
the clock it starts at any desired
time and stops automatically. And
the food? Delicious!

Mrs. Jessie Scott is conducting
daily demonstrations in our store.

Westinghouse ELECTRIC RANGE

ELECTRIC COOKING —less watching

The roast, for instance—first a quick
searing to seal in the savory juices, and
then a slow cooking heat as in a fireless
cooker. That's in the oven.

But over here, something is simmering
gently in a saucepan. Another pan is bub-
bling vigorously at the lid. Tomorrow
morning's prunes are stewing leisurely
between whiles.

Dinner is being prepared—and it must
be watched, too. For each different dish
requires a different method, a different
heat. One fire will not do for all.

That's one reason why electric ranges,
with their instantly regulated and easily
controlled cooking temperatures, from a
sizzling, searing heat in one place to a
just-keep-it-alive glow in another, are so
favored by good cooks. Electricity makes
good cookery better, and easier.

And that, plus the surprising economy*
of electrical cooking, is a reason why near-
ly one thousand eight hundred kitchens
in the territory served by this company
are now fuel-less and ash-less. Nearly one
thousand eight hundred electric ranges
have made them so.

Ask your nearest dealer to show you
several models. Convenient payments, if
you like.

*The actual average cost of
current for electric cooking
and lighting, together, in
homes in this neighbor-
hood, is \$5.62 a month.

THE CALIFORNIA OREGON POWER COMPANY

We believe that every woman in Klamath County should avail herself of the opportunity
to attend the Westinghouse Range Demonstration which will be held at the sales room of
the Link River Electric Co., July 13 to 18. The demonstration of electric cooking which
will be conducted by Mrs. Scott will be highly interesting as well as educational and we
take pleasure in recommending it to all our customers and friends.

Mrs. Scott will Bake Cakes again Today

She will explain to Klamath housewives the
effect of the altitude upon their baking, and how
best to counteract it.

THURSDAY IS OVEN DINNER DAY

The dinner will be placed in the oven at 1:30,
to be cooked for two hours, and will consist of a
roast, four vegetables and a dessert.

The public is invited to attend these demon-
strations.
