Every woman who is interested in better cooking

Come to the special demonstration of Mrs. Jessie Scott

TODAY IS OVEN DINNER DAY!

On this one day only, Mrs. Scott is showing those who call to talk with her, just how a complete oven dinner can be put into a cold oven and brought out hours later ready to serve, without the least attention having been given to the ovens in the meantime.

She will bake a roast and cook four vegetables all at the same time. This is an opportunity to see the household model 3-19-B type range working at full capacity. Come early and stay as long as you can.

Link River Electric Co.

Corner of Seventh and Klamath Streets

Westinghouse ELECTRIC RANGE

*The actual average cost of current for electric cooking and lighting, together, in homes in this neighborhood, is \$5.62 a month.

THE CALIFORNIA OREGON POWER COMPANY

We believe that every woman in Klamath County should avail herself of the opportunity to attend the Westinghouse Range Demonstration which will be held at the sales room of the Link River Electric Co., July 13 to 18. The demonstration of electric cooking which will be conducted by Mrs. Scott will be highly interesting as well as educational and we take pleasure in recommending it to all our customers and friends.

ELECTRIC COOKING —less watching

The roast, for instance—first a quick searing to seal in the savory juices, and then a slow cooking heat as in a fireless cooker. That's in the oven.

But over here, something is simmering gently in a saucepan. Another pan is bubbling vigorously at the lid. Tomorrow morning's prunes are stewing leisurely between whistles.

Dinner is being prepared—and it must be watched, too. For each different dish requires a different method, a different heat. One fire will not do for all.

That's one reason why electric ranges, with their instantly regulated and easily controlled cooking temperatures, from a sizzling, searing heat in one place to a just-keep-it-alive glow in another, are so favored by good cooks. Electricity makes good cooking better, and easier.

And that, plus the surprising economy* of electrical cooking, is a reason why nearly one thousand eight hundred kitchens in the territory served by this company are now fuel-less and ash-less. Nearly one thousand eight hundred electric ranges have made them so.

Ask your nearest dealer to show you several models. Convenient payments, if you like.

OVEN DINNER DAY

MENU

Lamb Roast Potatoes
Canned Peas
New Carrots String Beans
Custard
Served at 4 o'clock.

Mrs. Scott will put this entire dinner into a cold oven at 1:30 and leave it there for two hours. This is a new departure in cooking science, as custard can be cooked in this manner only by electricity. During the process of cooking Mrs. Scott will lecture on the use and care of the electric stove.
