

O. A. C. TO AID IN FIGHTING WORMS

Meetings for mapping out a more intensive plan of attack against the root worm infestation in Klamath county were held at Merrill and Marin Saturday evening. The Merrill meeting was under the direction of Frank W. Sexton, acting county agricultural agent, and C. D. Chorpening, emergency assistant during the worm invasions, had charge of the meeting at Marin.

The purpose of the two meetings yesterday evening was to discuss the cut worm problem and to outline additional measures for its control.

Telegrams appealing for advice in handling the worm menace were sent to the entomology departments of both O. A. C. and California university. In addition, the telegram to the Corvallis school requested the personal assistance of an expert entomologist in checking the pest.

A map from Corvallis will probably be sent to assist Sexton and Chorpening in handling the situation in Klamath county. The request for outside assistance was not made until tests Saturday morning showed the arsenic-brass used in combating the worms was apparently of no avail.

County Club Leader Sexton estimated that approximately 60 per cent of the second cutting of alfalfa in this territory was a total loss unless the worms were checked.

Former Klamath Man

Killed In Coos Bay

Word of the death of C. E. Mulkey, superintendent of schools in Coos county was received here some time ago and his many friends will be grieved to know of the sudden death of one who held many friends in Klamath Falls.

Mulkey was returning from inspecting a school across Coos Bay when passing through a wooded section, a tree blown down by a wind storm fell directly across his car, killing him instantly. The tragedy occurred near North Head.

Both Mr. and Mrs. Mulkey are well known in Klamath county, having taught school here for some time nine years ago. Mrs. Mulkey was before her marriage, Miss Matie Foster, a sister of Mrs. L. A. Branham of Klamath Falls and of Joe H. Foster of Round Lake.

Mrs. Mulkey has been asked to accept the unexpired term of her husband by the Coos county court and it is probable that she will accept as she was in close contact at all times with the work in which her husband was interested.

ATHLETICS GAIN OVER SENATORS

Kelso Man Announces Himself For Mayor

NEW YORK, July 25.—Connie Mack's Philadelphia Athletics gained a half game over the champion Washington Senators today in the American league pennant race.

While the Senators were idle because of rain, the Athletics knocked off the Boston Red Sox in 10 innings, by the score of 3 to 2 and increased their lead to one game and a half.

The Detroit Tigers also lost a half game in their battle for the first division when they were dropped by Eddie Collins' White Sox, 6 to 2.

The royal battle in the National

The force of an electrical, hail and rain storm turned Austin creek into a raging river, causing more than \$250,000 damage to crops, buildings, and stock in the vicinity of Lewiston, Idaho. Two children were washed from this auto and their bodies lost when a torrent poured over the hill, ripping away buildings but sparing lives.

UNUSUAL REQUEST IS ASKED OF ATTORNEY

PORLTND, Ore., July 25.—Out of the more or less personal files in the office of the United States attorney comes this story of a woman's unusual request. The names, because of the personal nature of the letter, were not made public.

Several months ago a woman whose home is about fifty miles from Portland, in a remote farming country, accessible over miles of bumpy roadway, was indicted by the grand jury on a charge of misuse of the mails.

She was sent for to appear before the bar of justice for arraignment and to enter plea. She explained to the officers that a baby was expected in her family, and asked that the trip to court be delayed.

Last week Assistant United States Attorney McGilchrist thought the

wheels of justice had been idle long enough, so he wrote the woman and told her to report at once at the court procedure.

This answer came to him:

"Dear Mr. McGilchrist:
I am sorry to disappoint you,
but I cannot bring the baby out in
warm weather. Neither can I say
when I could come as it is uncertain."

Maybe not until the baby is about two years old.

"Neither could I go there, until I could have my own attorney and I would have to earn the money first to pay him."

The rest of the letter told how to reach the woman's home.

A booster for Klamath county and Klamath Falls and every legitimate industry therein—that's the Klamath News.

Nothing can bring more delight to your home than proper light—Via Fleet's Pyramid Kaps, fasteners, sure an absolutely weather tight job. Ask us about this.

Backed by Johns-Manville with over fifty years experience in the manufacture of roofing. Made of carefully selected thoroughly saturated white giving natural asphalt.

Johns-Manville Pilot Roofing

Quantity output and economies make possible production of this roofing combines moderate first cost with really good service.

We recommend the application of Johns-Manville Pilot Pyramid Kaps, fasteners, sure an absolutely weather tight job. Ask us about this.
