3 CASES OF SCARLET FEVER HERE IN JULY

The third case of scarlet fever to be reported during the past month to the county health unit was that of Mrs. Dessir Sweek, of Mills Addition, who is said by Dr. G. S. Newsom to be in no immediate danger from the disease. The other two cases are well past the danger point and families will be lifted from quarantine in the immediate future.

According to Dr. Newsom there is no danger of a scarlet fever epidemic as many of the residents in the city fear.

July reports from the county health officer show only seven cases of whooping cough reported throughout the county as against the greater number which was thought to have spread for some time.

Other contagious diseases reported to the office included chicken pox, 2; gonorrhea, 4; syphilis, 2; mumps, 1; small pox 1; making a total of 17.

RACING PROGRAM IS OUT

The racing program for the county fair is just off the press and being mailed to interested inquirers who have horses, either running or harness, chariots, automobiles and pony relay strings. Special appropriation by the board covers a \$500 purse for harness and \$500 purse for automobile racing, and it is expected that traffic officers throughout the county and neighboring localities where the roads are good, will have many a merry mile chasing some aspiring automobile driver after the goodly purse!

IS A PEACOCK ashamed of HIS LEGS?

If not, why, when he looks at his legs, does he always lower his tail? Medieval nature-fakers puzzled over this and other entertaining superstitions. Today we know better, and we are fast getting away from other popular superstitions, as, for instance, that there is something mysteriously "better" about "eastern" motor oils merely because they cost more and are made in the east.

Superstitions Pass—the Facts Prove Zerolene's Superiority

As a matter of fact, there is no better motor oil than Zerolene, which is produced right here on the Pacific Coast from selected western naphthenic base crude, refined by this Company's patented high-vacuum process, and submitted to 15 positive checks for quality.

Experienced Automobile Men Disregard Oil Superstition

Experienced automobile men pay no tribute to superstition—they gauge a lubricant not by price or where it comes from—but by car performance and low maintenance costs. Zerolene is not only successfully lubricating more cars in the Pacific Coast states than any other oil made;—it is used and recommended by automobile agencies and big users of such celebrated makes as Cadillac, Chrysler, Dodge, Lincoln, Packard, Pierce-Arrow, who know that true motor oil economy is not a matter of price per quart, but what the lubricant does.

Less Carbon—More Power

Zerolene will improve the gasoline mileage, reduce carbon removal operations and lengthen the life of your car. Why pay tribute to a superstition? Insist on Zerolene—ask for it by name.

Get the Facts!

A series of independent and impartial reports showing the experience of large users with Zerolene motor oil has been collected in our booklet, "Why Pay Tribute to a Superstition?" Ask any Standard Oil Company representative or Zerolene dealer for a copy.

Insist on Zerolene—even if it does cost less
