## Step Out With Fall!

# Suits and Top Coats

Get out in the bracing air, put yourself in step with the new season—and dress the part. That's possible this autumn because the new clothes styles have plenty of 'pep.' You'll like the new modes, with the wedge-shaped Coats that have broad shoulders, tapering waists and closer fitting hips. The narrower trousers, too, make your appearance neater.

In Topcoats the tubular, guard and Chesterfield models are most inviting.
