DEAR FRIENDS:

The purpose of this Organization (THE NORTHERN JOB-BING CO.) is to furnish the individual store operator with a greater purchasing power and to afford merchants the opportunity of meeting competition of chain stores, mail order houses and large associated retail institutions, by taking advantage of a concentrated purchasing power.

By the establishment of a central headquarters in New York City for the members of this association, members are enabled to keep in constant and close contact with the market.

This association has at its head Mr. George Stewart, a buyer of international repute, who, with his staff of eight prominent buyers, covers the entire field of merchandising connected with Women's Apparel.

This year this eminent staff of buyers, with their assistants, have exceeded even our most earnest hopes. We are sure that friends and patrons of this store will experience great pleasure in profiting from our efforts for them.

THE UNITED BUYING POWER OF 960 STORES IS GREAT. Come and get the facts in your own way.

Yours truly,
H. N. MOE.

P. S.—The styles in Coats and Dresses are voguish; the garments themselves are of the most favored materials, handsomely developed and finished. Fur and embroidery trimmings predominate, and every garment has its flare. Your ideas as to colors are well represented in the various groups that comprise our Winter displays. New arrivals daily—so your immediate selection is advised.
