

COUNCIL HAS LONG SESSION

(Continued From Page One)

out by City Recorder Gaghagen, the proposed city budget for 1926 must be prepared, and he suggested that work begin on it at an early date.

The proposed ordinance, to have been submitted by the city park board, providing for the sale of certain portions of Riverside park to the Oregon Trunk and the Central Pacific lines at not less than \$7,500 an acre, failed to appear at last night's meeting. In consequence, the city attorney is to be instructed to prepare an ordinance along the lines suggested by the board.

RETURNS FROM NORTH

Ray Dunn returned this week from Portland, where he has spent several days on business.

means for the next meeting when plans for the new organization will be perfected.

The affair was a six months' proposition, during which time Klamath residents have felt they have not received the amount of work from the scout area they desire or feel their need. With arrangements not satisfactory the resolution of the subscribers was successfully adopted.

Troop No. 2, of which Percy Murray is scout master, will meet Friday night in the Presbyterian church, during which time registration certificates will be issued to all members, awards of tenderfoot badges made and a definite program of work for the winter adopted.

Under the leadership of Julius Mueller, Troop No. 1 will meet Friday evening, at 7:30 p. m. in the American Legion rooms in the court house, in order that several other registrations may be sent in to headquarters for the boys who have passed their tenderfoot tests. Work for the fall and winter months will be outlined and adopted.

ORIGIN OF CRATER LAKE INVESTIGATED

(Continued From Page One)

the only one in the world ever created through human agency. The stopping of the intermittent flows from the Lake county geyser was

caused by visitors placing dirt and various objects in the tube. The activity of the geyser will probably be resumed when this tube is cleared, it is believed.

Accompanied by Fred F. Henshaw, also of the United States geological survey, Stearns found in his 600 mile trip through south central

Oregon five new artesian basins and a number of new hot springs. Stearns, who has written a number of articles for scientific magazines, plans to write a popular article dealing with the "big hole" near Lakeview, which is the largest lava dome he has ever seen in the United States.

 New teachers, small classes, careful supervision, strict discipline, social advantages and moral training. Catalogue cheerfully sent on request.

Telling the world

The subtle air of good taste and dignity about your Knox "Fifth Avenue" will tell the more discerning of the passing world it carries that distinguishing mark of a gentleman's fine hat—the Knox Label.

KNOX HATS

KLAMATH CLOTHING COMPANY

A Daily Delivery of Luxury and Health

WHEN the cake of sparkling ice is placed in your refrigerator, you have accepted a delivery of luxury and health—

Better flavored food—properly protected food—

Out-of-season delicacies—staples—milk.

Because all can and will be properly protected when that cake of ice starts on its tour of health-building duty.

When you think of the things ice really delivers in the way of luxuries and necessities of the table, then you will realize why and how it more than pays for itself. You should take ice all of this Fall and Winter.

Be sure of your furnace!

Your comfort—even your health—depends on the kind of heat you obtain from your furnace. That kind of heat depends on the construction of your furnace and the skill with which it is installed in your home. Health requires an abundant circulation of warm moist heat! Not just heated air. Comfort requires adequate heat at minimum expense and effort.

ELECTRIC COOKING —less watching

The roast, for instance—first a quick searing to seal in the savory juices, and then a slow cooking heat as in a fireless cooker. That's in the oven.

But over here, something is simmering gently in a saucepan. Another pan is bubbling vigorously at the lid. Tomorrow morning's prunes are stewing leisurely between whiles.

Dinner is being prepared—and it must be watched, too. For each different dish requires a different method, a different heat. One fire will not do for all.

That's one reason why electric ranges, with their instantly regulated and easily controlled cooking temperatures, from a sizzling, searing heat in one place to a just-keep-it-alive glow in another, are so favored by good cooks. Electricity makes good cookery better, and easier.

And that, plus the surprising economy* of electrical cooking, is a reason why nearly one thousand eight hundred kitchens in the territory served by this company are now fuel-less and ash-less. Nearly one thousand eight hundred electric ranges have made them so.

Ask your nearest dealer to show you several models. Convenient payments, if you like.

*The actual average cost of current for electric cooking and lighting, together, in homes in this neighborhood, is \$5.62 a month.

THE CALIFORNIA OREGON POWER COMPANY

NO. COMPANY'S NOT COMING

If you drop a dish cloth, company won't come, but as a matter of coincidence, Popular Superstition is this are losing ground; so is the superstition that there is something mysteriously better about "electric" motor lubricants, merely because they cost more and are made in the east.

The Right Way to Judge Motor Oils
 More than ever, motorists are discovering that the test of an oil is not where but how it is made, and how it lubricates. That's why Zerolene—refined from selected western naphthenic base crudes—is today successfully lubricating more cars in the Pacific Coast states than any other oil made.

An Exclusive Process—What It Does
 Lubricating qualities have never been more carefully or successfully preserved than by the processes used at Standard Oil Company refineries for the refining of Zerolene—the Zerolene high-vacuum process, the Zerolene process of filtration through 40 tons of Florida Fuller's Earth, the refineries' 15 positive checks for quality.

What Zerolene Will Do For Your Car
 Zerolene will give your car better lubrication; it increases the gasoline mileage, reduces carbon removal and maintenance costs and lengthens the life of your engine in which it is used. Why pay tribute to a superstition? Insist on Zerolene. Always ask for Zerolene by name.

Get the Facts!
 A series of independent and impartial reports showing the experience of large users with Zerolene motor oil has been collected in our booklet, "Why Pay Tribute to a Superstition?" Ask any Standard Oil Company representative or Zerolene dealer for a copy.

Insist on Zerolene—even if it does cost less
