Does Your Money Come Back to You?

When you spend your money out of town, when you patronize stores in other cities, or buy from mail order house, your money never comes back. Money spent away will never be used for the betterment of your home town.

Money spent here stays here—it circulates and is used for you. The profits of our merchants are spent here.

Are you sending your money away where it—or the good it may do—will never come back? Keep your money where it will work for you.
