## Coats Interpret Fall Modes With Gorgeous Furs

Here are Stunning Coats for your Fall selection. Deep chin collars of fur, wide cuffs, partially bordered hemlines, godets and patches ingeniously placed, make them rich in beauty and loveliness. Designers have fitted and molded these Coats into lines that are flattering and becoming.

Among the new Coatings are such materials as Newzella, Duvetyn, Bolivia, Velours—in the lovely colorings that Dame Fashion has signified. Top Coats, too, are very trim and smartly tailored.

### AUTUMN

With all its glory of color, each year offers Fashion an almost infinite number of shades to choose from. Her latest selections are in rich and beautiful tones, direct imitations of nature's own vivid colorings. Those following are highly important, however. The tans and browns in fall's shades are always smart and becoming.

### WINE RED

and Burgundy are the rich and sparkling shades we find in wine. There is also a color with more of a purple cast like ripe grapes.

### BOTTLE GREEN

is just what the name implies—that deep, dull tone of the glass used in bottles. The lake, too, often reflects this glassy green shade.

### GRAY

is most fashionable in the silver and steel shades. Often a darker quality may be combined with the light shade in very stunning effect.

### NAVY

Navy describes itself, and its smartness is ever new. There is a lighter shade of blue such as in pigeon's feathers, which Fashion makes popular this fall.

The Blacks, Browns and Tans, too, are here to play their part.
