SPEED MARK BY DOUGHTY N. AIR FLIER

Flies an Hour Is Record By Lieut. Williams in Small Plane

AMERICAN LAUREL

Made on Long Island; Former Record of Frenchman Broken

YORK, Sept. 18.—(United News)—A tiny airplane scorched the air Friday at 302.3 hour—faster than anything man ever had traveled before.

From the terrific air by an enclosed cockpit. Williams, naval aviator, in white shirt he wears and the smile of a little school, made history as he sped over the kilometer (five-eighths of a mile) at Old Long Island.

Over the watchers below he gave an instant at the get-go with the propellers at 2500 a minute, cutting a slice, the plane swooped to wire. At breathless speed until it seemed that a crash had been avoided. At 300 feet ground it straightened, more than five miles a minute over the course.

Machine Stands Strain
"It is impossible that a mechanism could stand it," said in telling later about the breaking flight. "At 2500 rpm you are traveling, but you really begin to feel it with the world hopping

through the bumps of air and the wind against it like terrific blows. To land out would be like into the mouth of a spurt-drant.

Use of the ship followed my as if I was pointing a pistol with a rifle. The faster I more sensitive the controls. At 300 miles an hour, the such required on the con-like sounding a chord on the pleasure, I had no I know now that nothing is too fast for the eye, was clearly everything that on. I should say that it is possible for a man to their hundred miles an hour probably even 500 miles."

Real Small Plane
The small as airplanes go, feet from propeller hub to 22 feet from wing tip to and at its highest point it is eight feet above the ground. It is driven by a V-14 motor of 619 horsepower, bettered by 24.3 miles an existing record held by the motor, Bonnet, although adm Washington said Willard would not be recognized, because he did not standard three kilometer

light was one of a number at field, Long Island, which to establish an average of the purpose of ascertaining the plane complied with ment specifications, which in average minimum speed flies an hour.

Bootlegger Gave 100 To Jail Warden for Special Privileges

GO, Sept. 18.—(United News)—The charge that Terry Chicago beer baron, paid to the warden of the county jail for "special privileges" was serving a year's sentence expected to furnish the Thursday when the hearing, arising out of the heard in federal court. Peter M. Hoffman, who before Judge Wilkerson why he should not be cited in failing to keep Druggan, made public Friday night from a former assistant arguing that former Warden Westbrook was bribed by

griff said the statement was his office by the assistant Fred Strassheim, general just before he discharged. Copies of the statement given to federal authori-

Paddy Ryan Is Likely Winner At Pendleton

25,000 See Little Irish Cowboy Ride Snorter Gracefully

PENDLETON, Sept. 18.—Paddy Ryan, the little Irishman who holds the world's title for the greatest all-around cowboy, won in 1924 at the Cheyenne and Pendleton round-ups, drew nearer Friday afternoon to retention of his title when he stuck gracefully to a hard bucking mount by the name of Rawlins Gray. This unquestionably advanced him to the finals Saturday afternoon.

About 25,000 persons saw him ride. They packed the grandstand and filled most of the bleachers, despite the rain which threatened during the day and finally fell towards evening.

Eight of the 13 buckaroos who straddled horses this afternoon in the world's championship bucking contest stayed on the hurrican deck until the stopper's gun permitted them to quit, and they will contend with Ryan for the final decision.

Silas Barclay Lodged In Portland Hospital

PORTLAND, Sept. 18.—Silas Barclay, an Indian from the Klamath reservation, wanted here on charges of violating the federal prohibition law, was brought to Portland today by the deputy U. S. Marshal Johnson and taken immediately to the good Samaritan hospital to be treated for two pistol shot wounds inflicted by the sheriff of Crook county during an attempt to break jail.

GIRL'S SCREAMS GIVE ONLY CLUE

CHICAGO, Sept. 18.—(United News)—"I am being held a prisoner. Help me, please." With this as their only clue, a father and a fiancée have been searching the dives of south Chicago in an effort to locate pretty Rose Smith, 20, who disappeared last Monday from her rooming house under circumstances that pointed to kidnapping. Thursday they appealed to the police for assistance. The father is C. M. Smith, a wealthy land owner of Rossville, Kas., and the fiancée is Archie Noble, of Chicago.

Noble said the girl called him by telephone at a theatre where he is employed, saying she was being held against her will, in a house in south Chicago. She did not know the address. Noble made an attempt to locate her but without success. He then summoned the girl's father, The Smith girl has been in Chicago since last May working for a telephone company.

40 FOOT SNAKE IS TERROR TO FARMERS

EXCELSIOR SPRINGS, Mo., Sept. 18.—(United News)—For the second time in three months, a giant python, described as being 40 feet long, has terrorized the country-side near here.

While working in a corn field late Friday afternoon, Charles Adams, a wealthy farmer, living near Vibbard, northeast of here, heard a noise made by the cracking of corn stalks. Turning he saw the large reptile approaching toward him. "I fled to the house to get a gun. When I came back I saw the snake disappearing under a culvert. I didn't even get a shot at it," Adams said.

Memorial To Harding At Marion Shapes Up

WASHINGTON, Sept. 18.—(United News)—Plans for a memorial to Warren G. Harding are taking shape rapidly, former Senator Joseph S. Frelinghuysen of New Jersey, a member of the memorial committee, has reported to President Coolidge.

Frelinghuysen who was a close friend of the late president is taking the lead in carrying out plans for the memorial to be erected at Marion, Ohio, Harding's old home, in co-operation with citizens of the town. He made his report in a call at the white house.

CALIFORNIA BANS TEXAS CATTLE ON F. AND M. DISEASE

Governor Richardson Orders Cattle Shipments Held Up To Prevent Spreading

TO PROTECT CALIFORNIA

Order Includes Hogs and Sheep of Texas Where Prevalence of Disease Menaces

SACRAMENTO, Sept. 18.—(United News)—Gov. Friend W. Richardson late Friday signed a quarantine order, which prohibits the shipment of Texas cattle, hogs and sheep into the state of California.

The action was taken as a preventive measure against the possible spread of the foot and mouth disease.

The governor's order was issued on the strength of information furnished by Dr. John R. Mohler, chief of the division of animal industry of the United States department of agriculture, and upon the recommendation of Dr. J. P. Iverson, chief of the state department of animal industry.

Mohler advised the California department of agriculture that injunctions had been obtained to prevent federal and state authorities from taking measures to stamp out the disease now prevalent among Texas livestock.

"The reports of Dr. Mohler and Dr. Iverson, I believe, fully warrant me in taking prompt action to prevent Texas livestock from being brought into California," Gov. Richardson declared in a statement, explaining his action. "No effort will be spared to protect the cattle of this state."

"Dr. Iverson reported the matter to me late this afternoon, and upon full consideration I immediately issued the quarantine. I deeply sympathize with the people of Texas and hope they will be able to wipe out the disease."

Iverson said that the California quarantine was the first of a series of similar actions which he believed would be taken by other western states.

Senator Oddie Says Stanfield Was Framed

WINNEMUCCA, Nev., Sept. 18.—(United News)—The arrest of Senator Robert N. Stanfield at Baker, Ore., was described here today by Senator Tasker L. Oddie of Nevada as a "diabolical attempt to stop hearings of the public lands committee."

Oddie, republican member of the committee arrived here for a hearing and charged that Stanfield, chairman of the committee was brutally slugged over the head with a pistol butt when arrested in a cafe as drunk and disorderly.

"I don't know whether the attempt originated in Oregon or Washington but it is a contemptible outrage," asserted Oddie. "Some interests somewhere are attempting to interfere with our work. In my opinion there is absolutely no truth in the charges against Stanfield."

Girl Freshies Eat Too Much Chocolate

BERKELEY, Calif., Sept. 18.—(United News)—University of California medical authorities have been worried because girls of the freshman class weighed less, on an average, than co-eds of former years.

A partial explanation was advanced Friday when a check at a soda found near the campus showed that 96 per cent of its patrons were college girls. It also was revealed that 1500 chocolate eclairs, 1400 nut sundaes and 1200 slices of aged cake were distributed daily among the women students who patronize the shop.

ARGENTINE SENATORS FIGHT REVOLVER DUEL

BUENOS AIRES, Sept. 18.—Two senators of the Argentine propose to fight a pistol duel at 20 paces Saturday, as a result of a hot debate in the senate chamber.

The senators are Pedro Llanos and Alberto Aybar. Unless their differences are composed they will meet to exchange two shots each.

Coos Businessmen Withold Endorsing S. P. Klamath Lines

MARSHFIELD, Sept. 18.—(United News)—Coos Bay will emphatically not renounce its hope for an east-west Union Pacific railroad line through Oregon, it was decisively indicated at a banquet meeting of 100 business men. Indorsement of the Southern Pacific Klamath Falls program was withheld, despite the assurance of Alfred A. Hampson, of Portland, associate counsel for the Southern Pacific, that the project would not conflict with the east-west program sponsored by Coos Bay and the Oregon public service commission.

GREATEST RAIDS IN N. Y. HISTORY IN CHINA TOWN

NEW YORK, Sept. 18.—The clean-up of Chinatown has begun with the greatest raid in the history of that community.

Pell, Mott and Doyers streets were emptied of their inhabitants as fast as a fleet of patrol wagons could cart them away Friday night.

By midnight 500 Chinese had been rounded up, taken to the federal building, and started through the formalities of the law toward deportation for all who cannot produce citizenship papers. This wholesale raid is the government's reprisal for the slaying of Yung Sue Gum, a Chinese tailor, who was shot down in Mott street Friday afternoon, eight hours after a peace pact had been signed by representatives of the On Leong and Hip Sing tong. Yung was a Hip Sing.

Thirty policemen, under Lieut. Louis Dittman, aided by 20 men under Chief Federal Agent Ralph Cyler, carried on the raid under the direction of Federal District Agent Emory C. Buckner. The old Bowery theater at Bowery and Stanton streets, and the Thalia theater at Bowery and Bayard streets, both Chinese playhouses, were pounced upon and the entire casts and many of the audience of each arrested. Headquarters of the two tong were also raided.

By 11 o'clock the streets of Chinatown—Mott, Pell, Doyers and Mulberry—were denuded of Chinese, who had fled into hiding.

The Chinese were crowded into the building where an all-night court, presided over by Federal Commissioner Garrett W. Cater, was held. All those who could produce their citizenship papers were held for investigation under the Chinese exclusion act. Those who satisfied the commissioner as to their citizenship were to be released.

Many Will Attend Crater Ceremony

With the barometer slowly but surely rising, many Klamath Falls citizens are planning to attend the ceremony at Crater Lake Sunday afternoon at 2 o'clock, in honor of the laying of the plaque in memory of John Wesley Hillman, who discovered Crater Lake in 1853.

The speaker for the occasion had not been obtained last night by the committee in charge.

Among those who will be present at the ceremonial will be Stephen A. Mather, director of the United States National Parks and representatives from all community clubs in southern Oregon in response to the invitation sent out last week.

NO COMPROMISE IN WIND BETWEEN TWO LINES SAYS HART

The northern lines will fight to the finish for permission to come into Klamath Falls, Charles A. Hart, counsel for the Oregon Trunk, who arrived yesterday from California, declared last night.

"Any talk that negotiations are pending between our lines and the Southern Pacific for a division of traffic, dividing the hauls on California freight, is false. We will let nothing stop us from getting here," Mr. Hart declared.

Mr. Hart is here to get evidence and witnesses for the interstate commerce commission hearing in Portland, October 5.

MATHER FAVORS CRATER-DIAMOND LAKE COMBINING

Federal Chief National Parks Says West Too Anxious to Grab Tourist Dollars

IS LEAVING FOR CRATER

Sportsmen Oppose Inclusion of Diamond Lake in Crater National Area

PORTLAND, Sept. 18.—Reaction against federal dominance of scenic, sport and forest areas in the west appears to Stephen T. Mather, director of national parks, to be incongruous with the desire of western states to gather in the tourist dollars.

"As far as addition to the area of Crater lake national park is concerned," said Mather, "it is a joke to think that inclusion of any new territory would do any harm to the state."

Mather implied that the park service would like to have Diamond lake included in Crater lake national park because, he pointed out, that wonderful hatchery development had been built up at Yellowstone national park and that an arrangement had been made with the state of California for hatchery operations in Yosemite national park. Much of the opposition that has developed against inclusion of Diamond lake in Crater national park has developed in the ranks of sportsmen, who believe that the huge Diamond lake fish egg-taking station should remain under control of the state.

Mather and Congressman Crampton will leave tonight for a visit to Crater lake.

Rumpus in Army By Major Gen. Rogers

WASHINGTON, Sept. 18.—(United News)—Another sensation was sprung in the capital Friday when the war department revealed that Major General Harry L. Rogers, retired quarter master general had lodged serious charges against his successor, Major General William H. Hart.

The war department refused to divulge the nature of Rogers' accusations.

Rogers demanded that the war department make a thorough investigation of the circumstances under which he was retired in 1922. He was appointed in 1918 and retired four years later. War department records show he was placed on the retired list for disability.

YELLOWLY STIRRING UP CHICAGO PROHIB

CHICAGO, Sept. 18.—(United News)—"For the good of the service" was the wry explanation made Friday by Chicago's new prohibition administrator, E. C. Yellowly as he lopped off the heads of nine prohibition officers.

In the list were several of the best known agents in the service. One of them Al Johnson, head of the beer squad, was the man who arrested Terry Druggan and Frankie Lake.

Yellowly discharged several men who had been considered certain of retention.

Irish General Is Getting Protection

NEW YORK, Sept. 18.—Guarded by detectives, General Richard J. Mulcahy, former commander of the military forces of the Irish free state, toured the city unmolested by any sympathizers with the crowd of Irish republicans who bombarded his party with eggs and vegetables when they landed at Hoboken Thursday.

The general in conferences with representatives of his government here made light of the incident in which he was called a "murderer," "fiend," and the like.

Merrill Favors S. P. Program In Unanimous Vote

Ether Waves Bring Unbiased Report of Meeting to The Klamath News

Merrill went on record last night at a meeting in the community hall there as unanimously favoring the present Southern Pacific program. Of about 30 people represented, that entire number favored the Southern Pacific, who has announced and applied for permission to build a road through that town.

There was no hostile feeling expressed by Merrill folk at the meeting against the action taken the night before at its neighboring town of Malin, when after most of the gathering broke up, a unanimous vote was taken favoring the Northern lines and against the Southern Pacific. They took the attitude that each community should decide for itself what is most needed.

Two Evening Herald reporters, pencil and notebook were on hand to report the meeting. Inasmuch as J. J. Miller, of the Southern Pacific was at the Malin meeting, unbeknown to the Klamath News, night before last, but was accused of being a Klamath News reporter, and inasmuch as J. J. Miller was not present at Merrill's meeting last night, widespread interest is manifest as to who this mysterious News reporter really is. Paul Shoup in disguise? Or could it have been Arthur Brisbane, or perhaps Ring Lardner.

ROAD CONTRACTS TO BE AWARDED

Awarding of the contract for grading of the Midland market road will be made today by the county court, according to Frank Z. Howard, market road engineer yesterday afternoon.

Bids on the road have been received during the past week and will be opened by the county court today, following several months' extensive work on the project.

With the letting of the contract, work will begin 10 days following and will include the grading of the road for 5 7-10 miles from the Miller Hill school to Midland.

For the past ten years it has been practically impossible, especially with motor vehicles to make the trip to Klamath Falls from Midland, due to the mud and sediment common to that section of the county. Although the road will only be graded this winter it will improve it to a certain extent and plans are now under way to macadamize the entire road during the spring of next year.

Shenandoah Inquiry Set For Next Monday

LAKEHURST, N. J., Sept. 18.—(United News)—Capt. Anton Heinen, German dirigible expert, who said that the reduction of her valves was responsible for the wrecking of the Shenandoah, and surviving members of the crew will be witnesses before the special board of inquiry which will begin here Monday to determine responsibility for the disaster.

Capt. Paul Foley, U. S. N., judge advocate, who will preside at the hearings, said, he could not say at this time whether Col. William Mitchell would be summoned to testify.

Recalling the destruction of two British destroyers 25 years ago, and their subsequent value in warfare, Capt. Foley said:

"Such catastrophes as the wrecking of the British ships and the tragedy of the Shenandoah are milestones in the progress of the world."

PEOPLE OF WEST AROUSED—DAWES

CHICAGO, Sept. 18.—Vice President Charles G. Dawes believes he has conquered the far west.

Back home for a few days rest before moving on the south and east, Dawes declared he was thoroughly satisfied with the results of his Pacific coast campaign for revision of the senate rules.

"The people out west are aroused," said the vice president. "They will demand some changes. I convinced them conditions in the senate are bad."

SAFECRACKER AND ROBBER IS JAILED BUT DENIES GUILT

John Tuel, 26, Is Roused From Slumber and Taken Down To Jail By Loucks

IDENTIFIED BY 2 WOMEN

Employe of Company Whose Safe He Is Charged With Entering; Hearing Today

John Tuel, 26, who has a wife and young baby, was arrested late last night and was identified at the police station by Mrs. B. Drew as the man who stole nearly \$1,000 worth of women's clothing, including a \$600 coat, Thursday night, after bragging about "pulling a job" earlier in the evening.

Tuel, an employe of Cofer Brothers contracting concern, whose safe he is believed to have cracked, denies emphatically that he was implicated in the two robberies, despite the fact that two women identified their clothing, which was found a hundred or more feet from his house on the Cofer brick yards property near Oregon avenue. The clothing was crudely hidden under an old barrel in a motor shed of the brick yards. He claims he was working in Shippington the night of the safe cracking.

The clothing included yards and yards of pretty silk underthings, etc.

Tuel is said to have made a down payment on a Victrola yesterday with some of the money he is alleged to have netted from his safe-cracking job. The Victrola was in the home when Chief Loucks, Patrolman Morgan and Assistant District Attorney West aroused Tuel from his sleep to make the arrest.

What the charge will be against Tuel West could not say for certain last night, but he believes it will be larceny in a dwelling house, which is a penitentiary offense. He will be given a hearing this afternoon.

Tuel's baby will be five months old tomorrow.

Jap and Yank Army Swapping Officers

WASHINGTON, Sept. 18.—(United News)—Japan and the United States are exchanging army officers, the war department disclosed Friday in an announcement that two Japanese were leaving this country after serving six months attached to American troops at Fort Sam Houston, Texas.

Two United States officers, both whom speak Japanese are attached similarly to the Japanese imperial army.

The Japanese are Captain Kyuzo Kinemura, infantry and Captain I. Shimono, artillery. Major W. E. Crane, Jr., and First Lieutenant Warren Clear are the American officers in Japan.

A letter from the Japanese embassy to war department officials Friday expressed pleasure over the first exchange and a belief the practice would lead to a better understanding between the two nations.

JOHNNY WALKER AND WIFE HAVE SEPARATED

LOS ANGELES, Sept. 18.—Johnny Walker, stage and screen actor, announced here Friday that he and his wife, Rena Carter, now appearing in a New York city show have been separated since last May. The Walkers were married in 1917.

VOYE WILL SPEAK TO KLAMATH FEDERATION

A. J. Voyer of the Big Lakes Lumber company will address members of the Klamath Federated Community clubs tomorrow afternoon at the chamber of commerce. Mr. Voyer will discuss the railroad questions. He is a clear thinker and a good speaker.
